SPECIAL SESSION OF GRAND JURY

Case of Mrs. Eaton, Charged With
Murder of Husband, Will be
Considered Monday

PLYMOUTH, March 21.—The grand jury will convene in special session here at 10 o'clock Monday morning to consider the case of Mrs. Joseph G. Eaton, who was arrested yesterday charged with the murder by poisoning of her husband, Rear Admiral Eaton. This became known today when Sheriff Henry Barker, who is in charge of the jail where the widow is confined, received instructions from Dist. Atty. Barker to make the necessary preparation.

From her room in the county jail Mrs. Eaton sent a cheerful message this morning to her daughter by her first marriage, Miss Dorothy Almworth. The prisoner wrote:

"I want to tell you all—not to worry about me. Don't cry and take on over it for it will all come out all right in a few days. Look after mother and don't allow her to become excited and be sure to take care of everything on the place."

Mrs. Eaton had learned that her mother, Mrs. George Harrison who is ill at the Eaton home in Norwell, was suffering intensely by the shock of her daughter's arrest.

The widow herself appeared optimistic today and accustomed herself to the routine of jail life without complaint. All that she asked was to be allowed to do work or have some other exercise. "I have always been a very active woman," she said, "and cannot stand inactivity."

In conversation with the matron, Miss Eaton said that she did not expect to be confined more than a few days. She

Today

A little Polish boy, aged about five years, and whose name could not be learned on account of his little knowledge of the English language, narrowly escaped serious injury at 2 o'clock this afternoon, when he was struck and run over by a wagon at Merrimack square.

The little fellow, with a companion about his age, was crossing Prescott street near the Sun building, dragging along a large wooden box, when a wagon turning the corner struck him and threw him to the ground, one of the wheels passing over his head. Several people quickly gathered around the boy and a close examination was made, but to their astonishment the little lad was uninjured. His clothes were torn, but outside of that and a bad scare he was all right.

DISTINGUISHED VISITORS

Are Expected in Lowell Next Week to Review the Parade—Will be Entertained by Municipal Council

Several mayors from other cities as well as the lieutenant-governor and his staff are expected in this city to review the parade on March 29, and accordingly the city council has authorized the mayor to make proper provision for the reception of the distinguished visitors.

It is expected that a number of the chief executives of other cities will arrive in Lowell on the Saturday previous, and they will be entertained by the mayor and members of the council who will see that they are well taken care of while in Lowell.

FLAG ON EATON'S GRAVE

Placed There Today by
Kearsarge Naval Vets

A flag is flying o'er the grave of Rear Admiral Joseph Giles Eaton, in Oakdale cemetery, Dracut. The flag was given by the Kearsarge Association, Naval Veterans of Boston, and was placed on the grave this forenoon by the superintendent of the cemetery, Joseph Varnum, in the presence of a handful of newspaper men. The flag was brought to Lowell a few days ago by Captain F. A. Langley of the Kearsarge Association. The flag bears the initials of the Kearsarge organization.

PLANS UNDER WAY FOR NEW PLAY-GROUNDS IN THE OAKLANDS

Improvement Association Negotiating With Owner of Land Who Resides in the City of Baltimore

If present plans carry without hitch or blemish, and it looks as if they would, Lowell will have a little fenway in the Oaklands. The scheme, as a matter of fact, is pretty well matured and all that remains to do is to complete arrangements with the man who owns the land, and he, it is understood, is ready to enter into the plan proposed by that very energetic association, the Oakland Improvement Association. The owner of the land, one J. H. Kaiser, lives in Baltimore and the association has been in communication with him for some time.

The Oakland fenway, if the scheme goes through, will occupy a portion of the little valley between Fairmount street or reservoir hill and the Wentworth avenue hill. The proposition is a redyocra in every way. The owner of the land can well afford to give a certain portion of it, extending along Wentworth street, inasmuch as it will improve the land and enhance the value of the rest of the property in the little valley. The city will be asked to do some filling and the city can well afford to do that, too. Inasmuch as the improvement will mean greater revenue for the city in the way of taxes. The Oakland Improvement Association, and the people in the Oakland district, in general, will have to lend some financial support and they are willing to do it. The association will mean nothing more nor less than another park—another little breathing place and safety fresh air spot for the children. A man whose home is in the Oaklands said, today: "In a very few years the Oaklands hills will be dotted with houses and now is the time for the city to reserve little parks and playgrounds."

An Extended Fenway

It would be possible to have the fenway extend from Andover street to Shepard street and the stretch of half a mile or more could make a very delightful little bit of boulevard. It would not be sought by automobileists because it would be too narrow in places and it would lack continuity and it would make a very safe and very desirable promenade for the "krown-ups" as well as playground for the children.

Years ago a little brook used to wend its way through the stretch of land now desired for fenway or park purposes and the land there was never very valuable. There is an orchard there now and it is called "everybody's orchard" because everybody helps himself or herself to the apples. It seems that the valley orchard has no

J. H. GUILLETT
President of Oakland Improvement Association

rights that man is obliged to observe and it bends its well laden boughs to friend and stranger. The land where the orchard grows was once a part of the Wyman estate but is now the property of at least under the control of the Baltimore man, Mr. Kaiser.

The Oakland Improvement Association took the matter up with him last year but because of some hitch or other the proposition was not then pushed to a finish, and now the association has renewed its efforts. Mr. Kaiser controls more than fifty acres of land in the valley between the two hills in question and only a small portion of this, of course, would be included in the proposed fenway. The improvement of a portion of the land, however, would stamp its value upon

the whole and would render it salable.

Some Filling Necessary

If the fenway is built it will be necessary to put in about a three-foot filling of cinders or ashes with about six inches of loam on top. After the filling has been put in and the loam has been applied the association will plant trees, shrubbery and flowers at its own expense.

Lawyer J. H. Guillet is president of the Oakland Improvement Association and is very much interested in the fenway scheme. The land that we want you to fill or maybe, said Mr. Guillet, is not very valuable, but the price is not assessed for very much. Some time, years ago, I imagine, a brook tumbled along through the little valley and until the Wentworth avenue sewer was put in the land was very poor to use. The doctor takes care of the water at the present time but land so low in of little value. When the association asks Mr. Kaiser to do would be a good investment for him and the association does not ask the city to spend any money. I understand that he is a very successful business man and he will undoubtedly realize that it would be a good thing for him to do what we request. The building of the fenway would improve the rest of his property and as the property would be increased in value it is more or less a loan upon his hands.

The Oakland Improvement Association has done a great deal to improve conditions in the Oaklands and the people of the Oaklands are ever ready to lend a helping hand when it comes to help the little breathing places that we can find. The little bathing places that we can find in the Oaklands will be but a little while when all of the Oaklands will be populated.

Improvement Association Active

"Our association has already given Shepard street to the city and we intend to keep right on doing things. Shepard street is a concrete path from Holyrood avenue to Parkview and a 50-ft. street from Parkview Ave. to Wentworth avenue. There is no way at present to reach the land in which we wish to build the fenway and I think that the owner of the land will see the matter in its true light."

Speaking of the work done by the Oakland Improvement Association, Mr. Guillet mentioned the fact that the

improvement of a portion of the land, however, would stamp its value upon

GROVER CLEVELAND'S BIRTHPLACE NOW
RANKS AMONG THE NATION'S MEMORIALS

Left to Right: ESTHER and RICHARD CLEVELAND, MRS. J. PRESTON, MR. PRESTON, MARION CLEVELAND

CALDWELL, N. J., March 21.—The little parsonage of the Presbyterian church here, the birthplace of Grover Cleveland, has taken its place alongside of Mount Vernon, Monticello and the Hermitage in the history of the nation. The deed for the property has been transferred from the old parish to the Grover Cleveland Birthplace Memorial Association, organized to beautify and maintain it. The occasion of the transfer also signaled the seventy-sixth anniversary of the late president's birth. Mrs. Frances Folsom Cleveland Preston, former wife of President Cleveland; her husband, Professor Thomas J. Preston of Wells College, and the Misses Esther and Marion Cleveland and their brother, Richard Cleveland, attended the exercises. John H. Finley, head of the College of the City of New York and president of the memorial association, opened the exercises, and Mayor Esty welcomed the visitors, giving at the same time a brief historic sketch of the "Old Manse," as the parsonage has been called since the Presbyterians acquired it in 1781 through the efforts of the Rev. Dr. James Caldwell, who was known as the "fighting parson." The prettiest part of the ceremony came when President Finley called Richard

Cleveland, who sat between Esther Cleveland and his mother on the front row of the improvised platform. "The young man stood up tall and straight as Mr. Finley placed the key in his hand. "You, Richard Cleveland, bearing the same name as your grandfather, who daily went in and out of the doors of this house, may now use this key, which undoubtedly is the same key he used, and unlock the door." The crowd applauded while young Cleveland obeyed. "The Grover Cleveland Memorial Association wishes you, Miss Esther Cleveland, the 'White House child,'" said President Finley, turning to the eldest of the Cleveland children, "to carry these flowers into the house and into the same room in which your father was born. The roses signify the affection and devotion which the people of this country have for his memory." Among the addresses was one by Judge Alton B. Parker, who ran for president. Judge Parker said President Cleveland stood like a lone and sturdy oak in a hurricane of political controversy, when the country narrowly missed abandoning gold currency.

TO ADVISE GOV. SUTLER

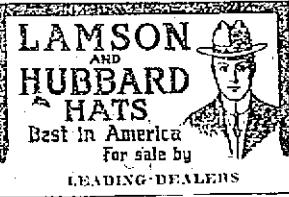

John Mitchell to Assist in Passing Upon Labor Measures in New York Legislature

ALBANY, March 21.—John Mitchell, vice president of the American Federation of Labor, has agreed to assist Gov. Sutler in passing upon proposed labor reform legislation, including the bills drafted by the New York State Factory Investigating Commission and the Workmen's Compensation problem. At the request of the governor, Mr. Mitchell came to Albany yesterday for a conference with the executive.

Mr. Mitchell's visit gave rise to reports that the governor had offered to make him head of the proposed reorganized state labor department at a salary of \$5000. Neither the governor nor Mr. Mitchell would say whether this matter was discussed.

The governor however, declared that "New York state could get John Mitchell to take charge of its labor department. It would be the luckiest state in the Union."

"I have given Mr. Mitchell," he added, "copies of all labor bills pending before the legislature, and he has agreed to assist me in considering them."

FOR CONTROL OF TUBERCULOSIS

Alderman Cummings Receives a Letter Announcing Hearing Will be Given Mar. 27

Commissioner Cummings is in receipt of a letter which was accompanied by an act for the better control of tuberculosis in Massachusetts. The letter says that the act is to be presented to the Massachusetts legislature and will be given a hearing before the committee on public health, Tuesday, March 21, at 10:30 a.m., at the state house in Boston. This act is based on the recommendations of the joint board consisting of the state board of health and the board of trustees of hospitals for consumptives appointed by the legislature of last year to present a definite policy for the treatment of tuberculosis.

The letter also states that if the common council can take immediate action and send word to the association in the form of a letter it will greatly assist them in presenting the act at the hearing.

The act is as follows:

Be it enacted, etc., as follows:—

Section 1. Section 14 of chapter 474 of the Act of the year 1905 is hereby amended by striking out the word "public" and substituting therefor the word "health"—so as to read as follows: "The state board of health shall have general supervision of said

sanitariums, and shall, when so directed by the governor, assume and exercise the powers of the board of trustees thereof in any matter relating to the management of the same."

Section 2. Section 35 of chapter 75 of the revised laws, as amended by chapter 613 of the acts of the year 1904 and chapter 161 of the acts of the year 1912, are hereby further amended by striking out the words "plans for the construction of the said hospitals shall be approved by the state board of health before the hospitals are constructed, and the state inspectors of health shall annually make such examination of said hospitals as in the opinion of the state board of health may be necessary," and inserting in place thereof the following:—"Plans for the construction of the said hospitals, with the exception of those intended for the treatment of tuberculosis, shall be approved by the state board of health before the hospitals are constructed. State inspectors of health shall annually make such examination of tuberculosis hospitals and other hospitals for diseases dangerous to the public health as in the opinion of the state board of health may be necessary. The plans for the construction of tuberculosis hospitals shall be approved by the trustees of hospitals for consumptives before the hospitals are constructed—so as to read as follows:

Section 3. Each city, town, and each town may, and upon the request of the state board of health, shall establish and maintain constantly within its limits one or more hospitals for the reception of persons having smallpox or other disease dangerous to the public health as defined by the state board of health, unless there already exists in the city or town a hospital for the reception of persons ill with such diseases, which is satisfactory to the state board of health, or unless some arrangement which is satisfactory to the state board of health is made between neighboring cities or towns, or between neighboring cities and towns for the care of persons having such diseases. All such hospitals established and maintained by cities and towns shall be subject to the orders and regulations of the board of health of the cities or towns in which they are respectively situated. Plans for construction of the said hospitals, with the exception of those intended for the treatment of tuberculosis, shall be approved by the state board of health before the hospitals are built. The state inspectors of health shall annually make such examination of tuberculosis hospitals and other hospitals for diseases dangerous to the public health as in the opinion of the state board of health may be necessary. The plans for the construction of tuberculosis hospitals shall be approved by the trustees of hospitals for consumptives before the hospitals are constructed. A city or town which

upon request of the state board of health refuses or neglects to establish and maintain such a hospital shall forfeit not more than \$500 for each refusal or neglect—provided, however, that if, in the opinion of the boards of health of two or more adjoining cities or towns or a city and an adjoining town or such hospital can advantageously be established and maintained in common, the authorities of the said cities or towns may subject to the approval of the state board of health enter into such agreements as shall be deemed necessary to secure the establishment and maintenance of the same."

Section 4. The state board of health will be empowered to investigate tuberculosis as related to public and private schools, private dispensaries, private hospitals and other private organizations dealing with tuberculosis, and shall require an annual report in such form as it may require from such public and private schools, private associations, private dispensaries, private hospitals and other private organizations concerning their activities in relation to tuberculosis.

Section 5. State board of labor, and industry shall promptly report to the state board of health all cases of tuberculosis, coming to its notice, and other necessary facts concerning the identity of each patient so affected, and shall make such further report as the state board of health may from time to time require.

Section 6. Section 46 of chapter 75 of the revised laws as amended by chapter 363 of the act of the year 1906 is hereby further amended by inserting after the word "with," in the sixth line, the words "Tuberculosis or other," and by inserting after the word "to," in the ninth line, the words "Any state institution for such cases or with the assent of the board of health having jurisdiction thereof to," and by inserting after the word "any," in the ninth line: "Other," and by striking out in the ninth line the words "and adjoining," and by inserting in the place thereof the word "any," and by inserting after the word "town," in the ninth line, after the word "commonwealth," and by inserting in the tenth line, after the word "smallpox," the word "tuberculosis," and by inserting after the word "smallpox" in the tenth line the words "by the trustees of other governing boards of said institution or town hospital," and by adding at the end of the section the words: "In case the local board of health refuses to give its assent to such removal, appeal may be made to the state board of health, whose decision shall be final."

No person removed by virtue of the provisions of this section shall be discharged from said state institution or city or town hospital without the written consent of some medical officer thereto duly authorized." So as to read as follows:

Section 47. A magistrate authorized to issue a warrant in criminal cases may issue a warrant directed to the sheriff of the county or his deputy, or any constable or police officer, requiring him under the direction of the board of health to remove any person who is infected with tuberculosis or other contagious disease, and impress and take up convenient houses, long, narrow, attics, and other nec-

essaries. The removal authorized by this section may be made to any state institution for such cases or with the assent of the board of health having jurisdiction thereof to any hospital in any city or town of the commonwealth established for the reception of persons having smallpox, tuberculosis or other disease dangerous to the public health by the trustees or other governing board of such state institution, or city or town hospital, provided the assent of the board of health of the city or town to which such removal is to be made shall first have been obtained. In case the local board of health refuses to give its assent to such removal, appeal may be made to the state board of health, whose decision shall be final. No person removed by virtue of the provisions of this section shall be discharged from said state institution or city or town hospital without the written consent of some medical officer thereto duly authorized."

Section 7. The state board of health shall have the power to recommend to city and town authorities, in suitable instances, the establishment of open air schools or fresh air rooms for children afflicted with tuberculosis or who by reason of anemia, under-weight or other conditions may be predisposed to tuberculosis.

Christmas Savings Club

The interest in the Christmas savings club started last Monday at the Traders National bank continues unabated and while the enrollment of the first day was far ahead of any received in any other city, the numbers being enrolled daily far exceed one of the largest clubs, ever founded for the saving of money. The two classes under which the club is being run has proven equally popular with the members. Of course, some people and more particularly the young, rather than the old, will say that they will join later on. To those who are contemplating doing such a thing we advise them to go to the bank tomorrow morning and enroil. Procrastination is the thief of time and may also prove to be separation of those who have not already enrolled, and the thorough enjoyment of the Christmas holidays.

ALL RECORDS For Lowell Broken

It is my privilege, as it is my pleasure, to announce to the good people of Lowell that their good will toward low priced tailoring evinced itself last week in the biggest week's business that they have given me since opening my store in Lowell going on five years ago.

Under the conditions imposed upon my shops by the garment workers' union, tailors are allowed to work now only 8 hours a day, with overtime of only an hour or two daily allowed, more time will be required in filling orders during the busy season. This is a blessing in disguise, because it means better garments for customers when tailors can start the day fresh and rested, instead of working the old way, tired and weary from want of sleep and rest.

Figure to give me a week on orders, please. In emergency cases for funerals or special trips 24 to 30 hours is enough.

SPECIAL to every man whose suit I promised for Easter Saturday I will say now it will be ready. My office may not have time to notify you with card or phone, again I say your garment will be ready.

FOUND DEAD IN ROOM

Sudden Death of James Armstrong

James Armstrong, a man well advanced in years, was found dead in his room, at 4 Fox's yard, off Davidson street, shortly before 3 o'clock last evening by Joseph Caron, a friend of deceased.

Wednesday evening Caron and Armstrong went out together and the latter remarked to his friend that he thought he would die soon. Caron paid no attention to the statement and last night when he did not see him, he went to his room, and there found the lifeless body. Patrolman Thomas A. Maloney was notified and later Undertaker Charles H. Molloy brought the body to his morgue. Armstrong has no known relative in this city.

DISFIGURED BY SKIN ERUPTION

If That is Your Plight, Let Resinol Clear it Away

Pimples, blackheads, rashes, ringworm, and, worst of all, that red, itching, scaly torment, eczema, vanish when you use Resinol Ointment and Resinol Soap. There is no doubt about it. Even though your skin is so unsightly with eruption that you shun your friends and your friends shun you, Resinol makes it clear and healthy, quickly, easily and at trifling cost. When you are sick of wasting time and money on tedious, expensive treatments, get Resinol Ointment and Resinol Soap from the nearest druggist and you will quickly see why it has been prescribed for eighteen years for just such troubles as yours.

The Resinol treatment works so gently, and is so absolutely free from anything that could injure even the tenderest skin, that it is perfect for healing the skin troubles of infants and children. You can test Resinol Ointment and Resinol Soap at our expense. Write to Dept. 10-S Resinol, Baltimore, Md., and we will send you a generous trial by parcel post.

DANCING PARTY

Enjoyable Affair in Grange Hall, Dracut, Last Evening Under the Auspices of the New Liners

The insalubrious atmosphere, with the accompanying inclement weather prevailing about this section last evening decreased but little the attendance of young folks at the dancing party given by the New Liners at the Grange Hall, Dracut Centre. Within this well

appointed hall were present about 150 persons and by the time that the hour hand of the large clock, at the rear of the hall, had reached the figure "9" the floor was covered with pretty girls and their graceful partners, who glided over its polished surface with all the lightheartedness which only youth can command. And yet even graceful dancers are sometimes lent additional grace by being favored with unusually smooth music. Such was the case at

the grange last night, for the lively notes of the different catchy airs to which the young people stepped, came from one of the best orchestras in the city. This music, rendered by Gray's, hit the fancy of the gathering to such an extent that the only time it was allowed to pause was during that period when the young folks sat down to a nice little repast. Then the dancing was resumed and enjoyed until the usual seasonable hour for departure.

MUNICIPAL BATHS

The arrangements for public skating at Shedd park during the winter season have made it possible for hundreds of children to enjoy themselves to their heart's content without the danger of paying the annual toll of lives that was formerly claimed by the Merrimack and Concord rivers from those who skated on their treacherous surface. Now that one of the great problems of winter sport has been solved satisfactorily, it may not be too soon to turn our attention to making plans for the comfort and safety of our increasing juvenile population which during the summer months bathes in the rivers, canals and surrounding ponds without unceasing supervision, or any precautions for safety. In past years drowning accidents have been many and all the more regrettable when we consider that most of them were preventable if the city had made any provisions for public baths for children so as to prevent them from using the rivers and canals during the summer months.

This matter of municipal baths is one that is considered of the utmost importance throughout the country. In the last edition of the Municipal Journal, a magazine devoted to all forms of American civic improvement, there is a very interesting article on out-door baths as they are operated in ten of the principal cities of the United States, including Buffalo, Chicago, Cleveland, New York, and Philadelphia. Although the plans vary slightly in the different cities the fact is emphasized that in no case is the cost very great as public summer baths do not call for the erection of very substantial buildings, and some of the cities charge a small admission fee which serves to meet the necessary cost of maintenance. In Chicago there are two beaches on the lake front under the control of the city park commission, one beach on the lake front and eight or nine open air concrete pools under the supervision of the various park boards. They are open from early in June until October 1st. The beaches accommodate from 2,000 to 3,000, and the pools 200 per hour with ten hours per day. New York has eleven free floating baths along the river front in the various boroughs, besides the public baths in Coney Island. In the river baths there is no charge for dressing rooms but suits or towels are not provided. In Philadelphia there are two open air swimming pools under the control of the board of recreation, open from June 20 to September 20. Dressing rooms are provided and suits and towels are free. Probably no city in the country is better equipped with public baths than Boston, whose system is well known to the majority of our people.

Although Shedd park, when completed according to the plans, will include swimming pools, the time when they will be available is rather remote and, because of location and growing population, it is doubtful if such baths would be sufficiently convenient. Many plans for public baths have been suggested, some of which are quite feasible and capable of being carried out without any great outlay. Some people have favored concrete pools constructed on the banks of the Merrimack, immediately above the city, some have proposed the cleaning and enlarging of the pool on the South common with such necessary changes in the water as would render it entirely sanitary, while others have declared themselves in favor of utilizing the canals. Although bathing in the latter has been forbidden bays have used them for years, and in the warm summer days hundreds avail themselves of the opportunity regardless of the quality of the water or the swiftness of the current. Although the canals are dangerous and have been the scenes of many drownings, one who has seen the keen enjoyment of the scores who dive from freight cars or revel in the polluted waters would find it difficult to forbid their use, especially as the city has no substitute to offer. It is a reproach to our city that the subject of municipal baths has been so long neglected in a city of such importance, and steps should be taken without delay to provide them. Our waterways are so numerous it ought to be possible to utilize some portion of them for the purpose of a bath system without great cost and with great advantage to the health and safety of the young people of the city.

THE HAVERHILL SPIRIT

The Haverhill board of trade supported by the people of that city, has succeeded in some public undertakings of a most important character, and the ability shown in their accomplishment is a very great example, if not a reproach, to the people of Lowell. In a spirit of energy and progressiveness they set out to increase and diversify the industries of the city and are meeting with remarkable success. Having erected several factory structures in the city proper, they have now launched a scheme for the construction of three eight-story factories in the Bradford district with the assurance that on their completion there will be no difficulty in securing tenants. To quote from a description of the proposed buildings:

"Each building will have an appropriate floor space of 120,000 square feet, including the basement. Each floor will have about 14,000 square feet, and the entire proposition, including the connecting sections in front, will add 60,000 square feet of first class factory space to the city."

"The land upon which the factories are to be erected, measures approximately 75,000 square feet, including that part running out to the harbor line, which will be built upon. The factories will stand within 500 feet of the Bradford freight yards, between two stations of the Boston & Maine railroad, and it is proposed to build a spur track which will skirt the rear of the building. In addition to the railroad facilities, a wharf will be built on the river front, affording water transportation once it is established. As it is, however, coal may be shipped direct by water from the mines to the factories."

Such a splendid spirit of enterprise as has been shown by the down-river community is worthy of the greatest commendation and of the imitation which is known as "the sincerest form of flattery." The example is not lost upon Lawrence where a development company has been meeting with success in selling stock and in interesting the business men of the city in a like movement. Lawrence has been shown the great danger that is liable to come to any city which depends for its prosperity on one or two industries. By the erection of factories such as Haverhill is building and has built, this danger would be lessened and in time entirely eliminated.

What Haverhill has done and what Lawrence is about to do, ought surely to be possible to Lowell which would represent being called inferior to either city by enterprise or public spirit. Yet though our board of trade proposed the scheme some years ago, and met some degree of success in arousing public interest, the matter was not very enthusiastically received and the project is now in danger of falling completely out of sight. This public apathy is due rather to a lack of interest than to any conviction of the impracticability of the scheme and the example of our neighboring cities ought to stir us up to a realization of the opportunities here offered for the future advancement and prosperity for Lowell.

Almost any man of forty can learn a good deal by sitting down and looking over his old school geography for an hour or two.

No, indeed, the island of Sardinia is not the place where the睡觉 comes from.

An instance of that valuable quality, presence of mind, comes from South Africa.

A German shoemaker left the gun in his shop one night and, on arriving in the morning, struck match to light it. There was a terrible explosion and the shoemaker was blown out through the door, almost to the middle of the street.

A passerby rushed to his assistance and after helping him to sit upright, he was injured. The little German ran to his place of business, which was now burning quite briskly, and said: "No, I ain't hurt. But I got out in due time."—Belfast News.

THE SOUL'S SPRING CLEANING
Yes, clean per house, an' clean per shed.

An' clean yer barn in every part;

But brush the cobwebs from yer head,

An' clean the snow-bank from yer back.

With spring cleaning comes a new life.

Bring forth the duster an' the broom.

But take yer foggy notions down.

An' sweep yer dusty soul of gloom.

Sweep off ideas out with the dust.

An' dress yer soul in newer style.

Scraps from yer mind its worn-out crust.

An' dump it in the rubbish pile.

Sweep out the bates that burn an' smart.

Bring out new loves an' new joy.

Abide the heartstone of the heart.

Play modern style in furniture.

Clean out yer mortal cubby-holes.

Sweep out the dirt, scrape off the scum.

It's clean time for healthy souls—

Get up an' dust! The spring has come.

It's clean time for healthy souls—

Clean up the windows of the soul.

Clean up an' let the spring begin.

It's clean time for healthy souls—

Clean up wide the dustic soul.

It's clean time for healthy souls—

Get out new style an' ideas—

Set out new style an' ideas—

An' let the soul once more be bold.

Sweep creases of new life.

Yes, clean per house, an' clean per shed.

An' clean yer barn in every part;

But brush the cobwebs from yer head,

An' sweep the cobwebs from yer head.

The Philippines

Johnstown Democrat: While there is little opportunity to Phillips independence and while even in the president's cabinet there will be a slight division of sentiment, it is probable a strong inclination that has for the Wilson administration to keep up old the archipelago which we hold by unexampled treachery and murderous conquest will be relinquished to government of the Philippines. This inclination is one devoutly to be wished and when it shall come it will bring crowning glory to the democratic Party.

PURE FOOD

North Adams Transcript: Dr. C. L. Alberg, successor to Dr. Harvey Wiley as chief chemist of the bureau of agriculture, announces that the law regarding pure food and drugs is being enforced to the strict letter. He has no desire to see enforcement will be to the advantage not only of the public, but to the manufacturers. And yet, the latter would be willing to take their chances without any interference on the part of the government. Nevertheless, the law is there and it should be enforced.

Fake Photographs

Lynn News: President Wilson has sent a request to the illustrations section in Washington that he bid some means of stopping the sale of photographs showing the president in the act of shaking hands with any man who may be a political antagonist, or even showing Mr. Wilson with his arms over the shoulder of men whom he has, of course, never seen. This practice has been carried on for many years. Mr. Taft objected to it, when it was discovered that some men were using such pictures in pressing upon immigrants and others who were ignorant of the customs of the country. Mr. Wilson does well in doing the same.

Save the Birds

Haverhill Gazette: The prospect of a not distant future when school children will know any of the commonest song birds only by seeing them in books or in museums, is imminent through which birds are receiving. More and more agitation is being made for the safety of the birds, but the necessity for immediate and vigorous action is generally agreed upon. We appealed to the public by calling attention to the enormous economic value of the birds as scavengers protecting the crops from injurious insects. These appeals should go unanswered. They concern the welfare of every inhabitant of this country. Destruction of crops reacts upon every consumer and the added loss due to an absence of birds from the parks and fields and meadows is enough to make any thoughtful person do his part in a certain effort for the safety of these feathered friends.

Change Towards Freedman

New Bedford Times: A marked change came over the New York medical profession during the absence in Canada of Dr. Friedman. Upon his return from the Dominion he finds openness of mind where he expected closedness, and a willingness to accept new ideas, and a willingness to be convinced where unreasoning opposition dwelt before.

Such a change of attitude is incomparable. Whatever may be the outcome of the claims of the German physician, it would be indefensible to have denied him an opportunity of testifying his treatment and establishing its merit or worthlessness.

Dr. Friedman has quite as much at stake as any one who has been inclined to place obstacles in his way.

In a vast majority of cases his interests are so much at stake that we have a right to demand that it is not easy to believe their prejudice was merely seeking self-expiation.

FOSS OUTLINES PRISON REFORMS

Submits Three Bills to the Legislature—Wants New Building for "Defective Delinquents"

BOSTON, Nov. 21.—In a special message sent to the legislature yesterday afternoon Gov. Foss discusses the need of providing more adequately for the housing of reformatory inmates and the inmates of state and county prisons.

With the message His Excellency sent in the drafts of bills for new buildings for "defective delinquents," for the appointment of an expert to assist in the proper treatment of female defective delinquents and for a report from the prison commission on the best method of providing institutional accommodations for our present prison population."

The governor's message follows in part:

"The state prison was built many years ago and its buildings are for the most part unfit for use."

"The reformatory buildings at Concord are by no means ideal for their present use, but might possibly be utilized to better advantage as a prison."

"The buildings of the reformatory for women at Sherborn are declared by competent authorities to be wholly unfit for their purpose. They were built when there was little knowledge

about the class of women to be provided for or about their treatment."

"Some of the counties possess excellent jail buildings, not fully utilized and not adapted to short-term men, such as drunkards, who need out-of-door work, but which would be available under a better prison system for certain classes of long-term prisoners."

Just Classify Prisoners

"It is clear that we should institute a better system of utilizing the buildings we now possess; that we should also ascertain what new buildings are necessary, assuming we are to demand the best possible use of the present ones, and ascertain also to what extent prison labor may be utilized in further building operations."

"Plans to build a new state prison and add it to the present penal equipment of the commonwealth would be of little, if any, advantage. Our first requisite is a modern method of classifying prisoners, locating in one institution all who require the same general type of custodial care, at another those suited to instruction and remedial treatment, and so on."

"However, there is one very important class of delinquents for whom we now make no real provision whatever, but for whom we must provide immediately, for the protection of society. I refer to those unfortunate of both sexes who are now punished by our laws, but who, nevertheless, are admitted to be constitutionally lacking in some quality of self-control or mental balance. They cannot be adjudged insane, but through an unfavorable heredity they are 'defective.' If left at large in the community they constitute one of our gravest social dangers. But neither the prison nor the asylum is adapted to their incarceration, and they are rarely capable of reform."

Cottages at State Farm

"For these 'defective' delinquents we should make provision forthwith. Chapter 185 of the acts of 1911 requires the maintenance of 'departments' for defective delinquents, and it is now obvious that special cottage buildings are needed for this purpose. I therefore recommend that provision be made for erecting two such cottages for male patients at the state farm, where they can be administered under the medical direction of the hospital for the criminal insane and where these buildings can be utilized by that hospital when the time comes for establishing a separate institution for the defective."

"To provide for female defectives I recommend the purchase of cheap land at Sherborn, near, but not within the present reformatory grounds, and the erection of two or more cottages thereon."

"While the future of the present Sherborn reformatory, as such, is in doubt, it is not likely that the commonwealth will abandon the existing plant and establishment. Reconstruction on a more enlightened plan

Problem Should Be Studied

"So much can be done at once. But as to the further modernizing of our general penal system, I feel strongly that the problem should be studied in all its bearings before the public funds are expended in this direction.

"Especially should we consider the

taking over by the state of all county jails, with complete disregard of the personal interests and protests of county officials, who depend largely for their political power and patronage on retaining the county system intact.

"Our first business should be to investigate carefully the possibility of establishing state care for all prisoners in the commonwealth who are serving long sentences; to devise a proper prison system on modern lines; and then to construct a prison to fit the system.

"Accordingly, I submit herewith the draft of three bills. The first of these provides for new buildings for 'defective delinquents'; the second calls for the appointment of an expert to assist in the proper treatment of female defective delinquents; and the third calls upon the prison commission to report as to the best method of providing institutional accommodations for our present prison population and for the state care of all prisoners within the commonwealth who are convicted felons."

NEW YORK, March 21.—Overcome by fumes of deadly chemicals or fighting frantically to reach the street by fire escapes and crowded stairways, more than 100 girls faced death yesterday when the factory of the Hirsch Cosmetic company burst into flames following an explosion of chemicals.

Two of the girls were found unconscious on the fifth floor of the six-story building by Policeman Schuldt, who, single-handed, carried both girls to safety. Several others were partially overcome and carried out by firemen and a number of girls received minor cuts and bruises in their rush to escape.

The fire was in the extreme lower

TELLS DEMOCRATS THAT POST-MASTER WORKED FOR WEEKS

Vigorous Attack by Secretary of State—"Charges Are False," Is Mansfield's Reply

BOSTON, March 21.—A vigorous attack on Postmaster E. C. Mansfield by Secretary of State Frank J. Donahue, in which the postmaster's immediate removal from office was advocated, enlivened the meeting of the executive committee of the state democratic committee held yesterday afternoon at the City club. The meeting was called for the purpose of organizing a state democratic club. Presidential electors and candidates on the state ticket

et were guests at the luncheon which preceded the conference.

Donahue's arraignment of Mr. Mansfield came in the course of a discussion on patronage in which it was the consensus of opinion that republican office holders should not be removed until the end of their tenure. Secretary Donahue agreed to this, but made an exception of the case of Postmaster Mansfield, whom he accused of "pernicious political activities." He charged that during the congressional fight in the 13th district between Congressman Weeks and ex-Congressman Mitchell, last November, Mansfield caused the postmen in that district to be politically active for the candidacy of

"He should be removed from office at once," said Mr. Donahue.

The power to organize the state democratic club was conferred upon Chairman Thomas P. Riley and Executive Secretary Michael A. O'Leary of the democratic state committee. The workers in the organization were encouraged to continue their efforts by most of the speakers who included Congressman Curley, Murray, Dietrich and Gilmore, Secretary Donahue, Dr. John W. Coughlin of Fall River, national committeeman, and George W. Anderson, candidate for attorney general last fall. Mr. Donahue was

particularly enthusiastic over the advantage of forming a state club which shall work in co-operation with the state committee.

One of the purposes of the meeting was to let the men active in the organization know that it was not the purpose of those responsible for the distribution of patronage to overlook those who have been bearing the burdens of the party in the award of office. At the same time a warning that there should be no unseemly scramble for office was given. It was at this point that Mr. Donahue made his attack on Mr. Mansfield.

Mansfield Denies All

Postmaster E. C. Mansfield, when told of the allegations of Secretary of State Donahue last night made a statement in which he vehemently denies he ever used his influence to further the candidacy of any candidate for public office. The statement is as follows:

"At the meeting of the democratic leaders held yesterday afternoon Secretary of State Frank J. Donahue, in the course of his remarks, stated, in effect, that a demand should be sent to Washington for my immediate removal from office on the charge of pernicious activity in politics.

"The basis of his charge seemed to be that during the last congressional campaign or during the five years I have served as postmaster have I ever solicited, directly or indirectly, the assistance or efforts of any civil service employee for or against any candidate of any party, knowing full well that such action on my part would be in direct violation of civil service rules.

"At a largely attended meeting of letter carriers held on Columbus day, Oct. 12, 1912, the president of the National Association of Letter Carriers, Mr. Kelley, appealed to all letter carriers to support Congressman Curley, Murray, Peters and Weeks, because of the friendly interest these gentlemen had shown in legislation favorable to the letter carriers of the country, and it is only fair to presume that a large

number of letter carriers followed his advice.

"This is the first time such a charge has been brought against me in my official capacity, and, coming just at this time, its object is not difficult to understand."

Plans for Great Parade on March 20th—Chief Marshal to Meet His Aids

Communications continue to pour in to the secretary and other officers and sub-committees in charge of the parade on March 20th, which indicates that great enthusiasm has been aroused in the forthcoming demonstration.

Mayor John P. Hurley of Salem and Hon. Frank J. Donahue, secretary of state have sent positive assurances that they will be present in the pa-

rade, while Congressman Eugene E. Reed will also attend.

Chief Marshal McManon today announced that he desires the presence of every man invited to ride on his staff, as a mark of honor to be held Sunday afternoon in A. O. H. Hall at 3 o'clock in case of anyone not being able to attend. He expected that he will send his name to the chief marshal at once.

Monday night in A. O. H. committee room, a meeting of the general committee will be held when the final details will be cleaned up and final orders issued.

Hopkins Estate Set Aside as Catholic Charitable Institution in Worcester—House Will be Remodeled

WORCESTER, March 21.—A new Catholic charitable institution for the benefit of unfortunate women, toward which the various Catholic women organizations have been working for several weeks, was formally established last night with the announcement that the property known as the Hopkins estate at Vernon and Ward streets has been set aside for the new home.

The property consists of a two and one-half story-house and about 10,000 square feet of land. It was purchased

several years ago by the late Mgr. Griffin and made a part of the Church of the Ascension parish that was organized.

The house is to be remodeled and will be opened for its work as soon as the necessary changes are made.

All voters, men and women, are cordially invited.

WOMAN FATALLY BURNED

Sparks from Grate Set Fire to Choking of Mrs. Jennie Laws, Aged 86, at Brattleboro.

BRAINTREE, March 21.—Mrs. Jennie Laws, aged 86, living with her daughter, Mrs. Emma Howes, was fatally burned by sparks from an open fireplace yesterday afternoon and died last evening at 6:30.

About 2:30 Mrs. Howes heard her mother screaming for help. Mrs. Howes rushed into the room and drew rugs from the floor and wrapped them around the blazing woman. She succeeded in extinguishing the blaze, but not before Mrs. Laws was badly burned about the face and upper part of the body. Mrs. Howes' hands were badly burned.

The Ring Co-Operative Piano Club

NOW FORMING A GREAT CO-OPERATIVE CLUB OF 100 MEMBERS IN THE
Greatest Piano Event Ever Held in Lowell

JOIN NOW—ACT AT ONCE

We have inaugurated the greatest event ever recorded in the history of piano selling in Lowell or elsewhere. A gigantic club of 100 members co-operating as one individual to purchase 100 new pianos—worth \$275 each—for \$162.50 each, or an actual saving of \$112.50. There are no extras of any kind, no interest, nothing to be added for stool to match and beautiful scarf, carriage, or the privilege of paying at the rate of \$1.00 per week, and club members enjoy privileges and advantages enumerated below, which are not a part of the usual buying and selling of pianos.

\$162.50

These 100 pianos will be sold \$1 cash, then 1 dollar a week. The dollar hardly covers the opening of the account—yet the dollar payment made when you join the club is credited to your account.

The piano will be delivered immediately. You do not have to wait until the club is filled. You get your piano when you join. The remainder is payable every week.

JUST 100 MEMBERS WILL BE ACCEPTED

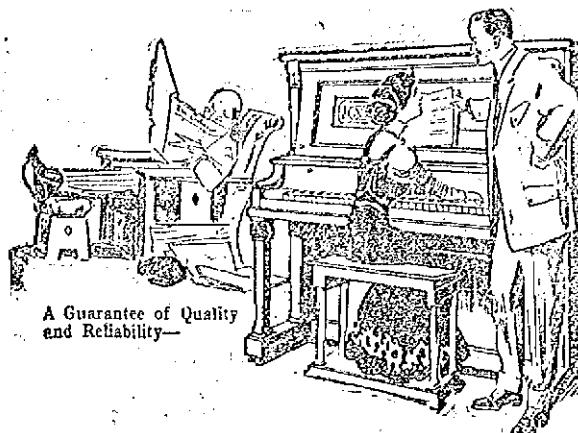

That's our entire present allotment of pianos—and the limit of membership will be speedily reached; so join now—ACT AT ONCE.

If after 30 days' trial the piano does not prove entirely satisfactory, we will give you your money back.

We give a 25 Years' Guarantee with every Club Piano sold, which insures you from taking any risk.

PIANOS

We carry in stock the largest and finest lot of pianos to be found in New England, including Emerson, Sterling, Ring, Huntington, Milton, Palmer and others.

A Guarantee of Quality and Reliability

These pianos are manufactured by an old established, reputable and reliable New York concern, which has been building artistic pianos since 1879. This particular piano which we are selling on club terms is the actual model that has been selling heretofore for \$275.

OUR PRICE ON CLUB TERMS IS ONLY

\$162.50

AND IS SOLD ON EASY TERMS OF

NO INTEREST NO EXTRAS

A Word Concerning the Ring Piano Club Now Forming

Most pianos are sold on partial payments—95 per cent of them—and partial payments add a bit to the cost. But in the Ring Piano Club it is different—instead of paying more than the usual all-cash price, you pay less, and not pay for interest or any sort of extras. And yet the payments extend over a period of three years—so easy that any body can care for them.

Is \$112.50 in real money worth saving? The value of each of these Club Pianos is \$275.00. The Club Terms:

\$1 CASH \$1 A WEEK

NO INTEREST NO EXTRAS

ACT NOW

Pay \$1, which makes you a member of the club and the piano is delivered to your home AT ONCE.

The Club Saving Is Just This

Club Piano Worth.....	\$275.00
Price to Club Members.....	\$162.50
Actual Saving to Club Members.....	\$112.50

The saving of \$112.50 by each member will pay for the musical education of one child for 2 years and 11 months at 75¢ a lesson.

PAY \$1 AT JOINING—and get the piano into your home at once. Then pay \$1 a week as you agree on at the time of joining club. The club is positively limited to ONE HUNDRED MEMBERS. Be in time.

The Club Books are now open for membership. The pianos are on display in our salesrooms, where you can see and hear them, and select one if you wish; and the piano of your choice will be delivered on your initial payment of \$1, which only covers the opening of the account, and which dollar is deducted from the amount you are to pay.

IF YOU CANNOT COME TO STORE, SIMPLY SEND CHECK OR POST OFFICE ORDER FOR \$1.00 AND SAY I WANT TO JOIN THE CLUB.

WASHINGTON, March 21.—With two cases of smallpox reported in the past few hours, physicians today renewed their activity with vaccine and needles. While the health department of the districts affected are not alarmed over the situation, nevertheless, the most careful precautions are being taken and the vaccination of governmental employees and others are proceeding. The department is gratified with inquiries as to the extent of the near epidemic, but inquiries from the authorities declare that the progress is not nearly so great or alarming as might seem.

Meeting of Club Next Week

NEW YORK, March 21.—Officials of the New York Yacht Club declined to day to comment on Sir Thomas Lippont's statement in the British Inter-Ocean Inter-Ocean paper who recently suffered a slight hemorrhage of the brain. It was given out last night that after two or three weeks of absolute rest he will have made a complete recovery. He continued to improve yesterday, it was stated.

One of Mr. Kohlsaat's daughters, Mrs. Shepard, arrived yesterday. Another daughter, Mrs. Potter Palmer, Jr., accompanied by her husband and children, is expected today.

IN PREPARATIONS FOR THE COMING SEASON—CANDIDATES ARE TRAINING

As is the case about this time every year, the candidates for the varsity and freshman crews at the different universities east and west are busily engaged in their annual indoor rowing trials. Reports from Penn, Yale, Cornell, Harvard, Annapolis, Syracuse, Columbia and Wisconsin tell of record breaking lists of young rowers who have responded to the calls of the coaches. Rowing is no child's play. From the successful candidate or substitute alike is demanded, not weeks, but months of hard training work.

KETCHEL-JOHNSON BOUT

True Story of the Fight
in Colma

On the afternoon of Oct. 16, 1903, Jack Johnson knocked out Stanley Ketchel in the twelfth round, the unequal match occurring in the old Colma (Cal.) arena.

In the eleventh round the big black heavyweight champion took a light blow on the left side of the neck, popped in the canvas and got up rubbing his right chest. The "Knockdown" brought a great crowd to its feet, but Johnson only smiled and in the next round beat poor Ketchel to the door, where he lay in a heap.

The sensational match was expected

to make the moving pictures of unusual value, but on the morning after the San Francisco critics picked the affair to small bits of ridicule. Charges of "fakery" were made, but never proved.

Ketchel was the world's middle-weight champion and a public idol at the time.

He was given the usual reception of wild shouts, shrieks and hand clapping when he climbed between the ropes, but immediately sank into his chair, where he broke into tears as his gloves were being adjusted.

Stanley Ketchel and Billy Light, who was his manager, are both dead, and therefore a prominent sparkling man of New York is when Britt confined the truth of that long told lie.

Ketchel broke down because he had paraded the ring side to certain defeat, while Britt followed, threatening the champion with death if he didn't go through with the fight.

"Britt, the braggart, most running and resourceful man that ever han-

ded a fighter, was alone in the grip

for the situation. He himself explained

it to me long afterward.

Britt figured that by matching the middle-weight champion against the "wonderful black" a heavy beat would result.

Also he believed that the moving pictures would bring a fortune, and he knew that a defeat for Ketchel would not affect his standing as the 155 pound title holder.

It was a well laid plan, but the San Francisco newspaper men blew it up higher than the hills of Colma.

"To get Ketchel to agree to such a match, as Britt told me, he assured the champion that Johnson had been reached."

"In the dressing room five minutes before entering the ring, Britt told

Ketchel the truth, told him that Johnson was "trying" and that the battle would have the real California brand.

"It must be decided on its merits."

Ketchel waited, and when argument failed, Britt beatified a six shooter. Even while Billy was fanning

the gun could be seen sticking out of his side pocket.

"Britt forced the execution of his plan. The fight was absolutely on the square, and it was the case with which Johnson honestly won that wrecked the value of the moving pictures."

"Billy had to tell the story to some one, so he picked me, and over a dinner table he laughed at the many wild guesses shot at this sensational ring puzzle."

PARK COMMISSION MEMBER HAS
PLANS ALL PREPARED

Park Board Discusses Question of Su-
perintendent Whittet's Successor

Lawn Tennis Popular

Park Commissioner Carr has plans drawn for an electric fountain for the south common. He spoke about it at the regular meeting of the park commission last night and said it should be included in his plan a combined sanitary station and shower bath. He will present the plan at the next meeting.

Sup. Whittet's report on the popularity of tennis at various cities of the east. New Haven, Conn., was the only city to report that the game was not popular.

In Philadelphia and Springfield, Mass., it was reported as being very popular, and the other cities which reported favorably were New York, Brooklyn, Bos-

ton, Worcester, Hartford, Cambridge and Waterbury, New Britain, Conn. Two courts under construction, but not venture an opinion as to the popularity of the sport.

In Brooklyn the average attendance a week is 200 for each court, while in Worcester 200 is the average. In Hartford 674 is the average, while for one season in Springfield 30,000 used the 10 courts built. Waterbury reports 200 persons a week using the courts.

New York Likes Tennis

New York has 200 tennis courts and the number in other cities is: Brooklyn, 225; Philadelphia, 92; Boston, 102; Worcester, 10; Hartford, 10; Springfield, 14; and Waterbury, Conn., 4.

The New York courts are placed in various locations. Brooklyn's grass courts are used altogether. Philadelphia has no record of the different sorts of courts. Boston pays \$500 each for each court, and the cost in Worcester varies from \$150 to \$300 per court. Hartford paid \$450 for a set of two courts, and Springfield paid \$100 for a single court. Waterbury's courts cost but \$60 each, and those of New Britain have cost \$100 each. In all of these cities have greater areas of grass. Worcester, the pay varying from \$1.50 to \$2 per day. The lowest paid are in Philadelphia and the highest are in Boston.

Mr. Whittet's Resignation

Mr. Whittet presented his formal resignation to the chairman, who read it as follows:

To the Park Commissioners of the City of Lowell, Mass.

Friendmen:

"I hereby send to you my resignation as superintendent of parks to take effect at convenient to you on Saturday, March 22, instant, 1913.

"I have been offered a position in the west, and wish to enter upon the duties of the new position soon after the 20th of March.

"I thank you for the consideration I have always received from the members of the commission.

"Respectfully yours,

Charles A. Whittet."

Mr. Greene said that if Mr. Whittet is to leave by the 25th of the present month it will be necessary to secure somebody to take up his work.

Mr. Hall felt that unless there is some real high grade work to be done, there will be little necessity for securing anybody to do the work. It will be May before the actual redefinite work of the department can begin.

Mr. Whittet said that the next meeting will be held on March 25, at which time an inventory of the department will be offered.

Mr. Whittet's Successor

Judge Pickman, referring to the successor to Mr. Whittet, believed in securing a man who could direct them in their work, tell them the details of office work, as well as possessing a knowledge of shrubs and flowers.

"It is easy enough to get a man for one particular work," said Judge Pickman, "but not one who can do all of the things needed. The pace of the department will be set by the superintendent. We want to get a man of ability, and we want him to be honest, and we want him to be a man who should go elsewhere. I am getting out of the board and perhaps I should not speak in this way, but this is frankly how I feel.

"We can't have a man who simply wants the job, who wants the money. He must measure up to a real standard. I am not going to be particular in this matter. I would go over the whole world to get the right man.

"There are lots of good men in Lowell. He won't have to go out of the city to get a man," remarked Mr. Carr.

"Well, a gardener isn't the only sort of man required," said the chairman. "It is well the superintendent should be one, but some other qualifications are necessary."

Moody School Steps

The question of repairing the steps at the Moody school came up. Mr. Whittet said that Commissioner Cummings had said Principal Greene of the school could pay the bill for the work—he wouldn't do it.

Mr. Whittet had placed the order for the stone for the work at the suggestion of Mr. Greene.

Mr. Hall felt that Principal Greene should not be obliged to pay for it out of his pocket. A fund was subscribed by the people of the locality but not enough money had been subscribed.

Judge Pickman didn't want to pass upon the matter, although he said that the very fact that Mr. Whittet gave

STATE SENATOR EDWARD FISHER

Objects to Use of Assessed Valuation as Evidence in Land Damage Cases

In the senate, yesterday, Senator Edward Fisher of Westford attacked the bill to permit the assessed valuation of real estate for a period of three years prior to bringing suit to be used as evidence in land-damage cases. He said it was breaking down the fundamental rule of common law as to evidence of abuse.

Williams of Norfolk defended the bill, which he said was asked by the corporation counsel of Boston. Hilton of Framingham opposed on the ground that if passed, it would tend to raise the value of real property on towns.

Allen of Melrose supported the bill and read a letter from Atty. Gen. Swift indorsing it. Mack of North Adams opposed it. Montague of Boston favored it as solving a most important abuse.

Quigley of Holyoke favored the bill, which was ordered to a third reading by a vote of 23 to 12. The vote:

In Favor—Bagley, Bazeley, Bellamy, Brennan, Chase, Clark, Draper, Fay, Fitzgerald, Garst, Halle, Hickey, Hogan, Joyce, McNamee, Lane, McCarthy, Norwood, Quigley, Ross, Timilty, Williams—23.

Opposed—Blanchard, Conlidge, Fisher, Gordon, Hilton, Hobbs, Johnson, Mack, McCarthy, Stearns, Ward, Wheeler—12.

Paid—For, Wells; against, Eldridge.

The Single Ballot

The Massachusetts house had several interesting discussions yesterday afternoon and did not adjourn till nearly 5 o'clock. The principal contest came in the bill to abolish party enrollment. The measure provided that at primaries thereafter there shall be a single ballot in which the various political parties shall group their candidates.

The voter is given this ballot, but in marking, must confine himself to one group of candidates. The committee on election laws reported against this bill, yesterday by a vote of 10 to 96. The house substituted the bill. Party lines

PIMPLES AND SORT OF RASH

First Between Fingers, Spread Rapidly to Palms of Hands, Lower Limbs and Soles of Feet. Healed Through Use of Cuticura Soap and Cuticura Ointment.

Dudham Ave., Needham, Mass.—"My trouble showed its presence first between the fingers. It developed in the form of peeling off of the skin. This it spread rapidly to the palms of my hands, and next on my lower limbs and the soles of my feet. On my lower limbs pimplies and a sort of rash developed, which led at times to so great irritation as to make me unthinkingly seek relief by scratching, only to result in the apparent spreading of the trouble. My skin in the affected parts became hot and dry. The disengagement of my hands was unpleasantly noticeable. Refreshing sleep under such conditions was wholly impossible, and a nervous condition followed. I was compelled to wear bandages on my feet to relieve the irritating effect of my shoes."

"Various remedies were tried but none of them seemed to give any definite benefit until I resorted to Cuticura Soap and Ointment. Improvement began at once and the gradual disappearance of the patches on my hands with the accompanying itching and burning resulted. My limbs and feet yielded more slowly to the treatment, but eventually they also were healed through the use of Cuticura Soap and Ointment." (Signed) A. A. Cambridge, May 18, 1912.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold everywhere. A single set is often sufficient. Liberal sample of each mailed free, with 25c Skin Book. Address post-card "Cuticura, Dept. T. Boston."

"Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp. A. A. Cambridge, May 18, 1912.

In Favor—Bagley, Bazeley, Bellamy, Brennan, Fitzgerald, Garst, Hickey, Hogan, Joyce, McNamee, Lane, McCarthy, Norwood, Quigley, Ross, Timilty, Williams—23.

Paid—For, Horgan; against, Norwood.

Substitute Listing Bill

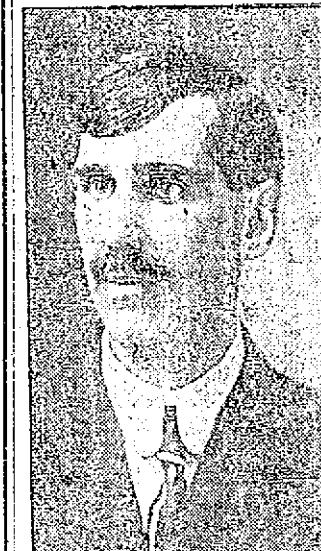

Joyce of Boston moved the substitution of his bill to permit police captains and lieutenants to list voters in that city April 1, for an adverse report. Chase of Danvers opposed on the ground that the listing should be kept in the control of the election commissioners at all times. The bill was substituted by a voice vote.

The Airship Bill

On motion of Allen of Melrose the airship bill was amended to provide that no air machine shall fly over a town of less than 5000 inhabitants at an altitude of less than 500 feet and by striking out the provision that cities shall supply themselves with apparatus to detect the altitude of air machines ordered to a third reading by a vote of 17 to 0.

Bill is Rejected

Montague of Boston opposed the bill that technical, industrial or vocational education in the primary or grammar

SENATOR ED. FISHER

schools shall not be compulsory, but such education may be given to any pupil unless there is written objection by the parent or guardian.

Horgan of Boston defended the bill and raised a laugh by exhibiting some things which children are now required to make. He said that the children are not given sufficient instruction in the studies that will be of value and too much in so-called vocational training, which is not practical.

Bazeley of Cambridge opposed the bill, which, he said, would destroy all discipline in the schools. He did not think, whatever they might do for Boston, that such a bill as this should be sent state-wide into every city and town. Clark of Melrose defended the bill, which was rejected 12 to 18. The vote:

In Favor—Clark, Draper, Fitzgerald, Hickey, Hogan, Johnson, Joyce, McCarthy, Norwood, McNamee, Quigley—12.

Opposed—Allen, Bazeley, Bellamy, Conlidge, Eldridge, Fay, Fisher, Garst, Gordon, Hilton, Hobbs, Mack, McNamee, Ward, Wells, Wheeler, Williams—12.

Paid—For, Brennan; against, Stearns.

The Senate

The senate received these reports:

Public Service—Leave to withdraw to F. J. McNamee on his petition that persons who have been convicted of a crime may hold public office under regulation of the civil service laws; also that the committee be discharged from further consideration of the petition of Frank A. Rivers, relative to removals and suspensions under the civil service laws and that the same be referred to the committee on judiciary.

Public Health—Leave to withdraw to Mayor Fitzgerald on his petition to prohibit the sale of adulterated candies.

Metroopolitan Affairs—Bill to provide for the further widening, extension and construction of Avery street, but striking out the words, "the widening between Mason and Tremont street may include the whole or any part of the estate of A. D. Hill and other trustee"; also a bill that the Metropolitan Park commission may take from Cambridge certain lands along the Charles river now maintained as a park, with the consent of Cambridge.

MGR. O'CALLAGHAN DEAD

Beloved Pastor Passed
Away Last Night

DOCTORS MADE EVERY EFFORT TO
PROLONG LIFE

Came to America at Early Age—Educated at Salem—Was 72 Years Old—
Funeral May be Held Monday

BOSTON, March 22.—The chimes of St. Augustine's, pealing mournfully at 11 o'clock last night, announced to all South Boston that Mr. Denis O'Callaghan, one of the best known and most

beloved Catholic clergymen in all New England had died.

The end had been awaited for many hours. It came peacefully at 10:57 o'clock as the aged prelate was surrounded by doctors, curates, friends and relatives at his home in the parish house, F. and Eighth streets, South Boston. When the final moment came Mr. O'Callaghan had been unconscious for several hours.

A few moments after he died the people of his parish and all in South Boston were apprised of the news by the tolling of the bells in St. Augustine's. In commemoration of his 72nd birthday, which was last Tuesday, the bells were tolled 72 times by James Nealey, the sexton of the church.

Yesterday at noon Mr. O'Callaghan seemed to have rallied against the illness which afflicted him since last Saturday night and which made him unconscious as he was reading the Sunday services of his church. His condition yesterday was so much improved that at 12 o'clock he got up and tried to walk to an adjoining room. This effort, however, sapped nearly all his remaining strength, and he again had to be carried back. He lapsed again into unconsciousness.

Throughout the afternoon he was kept alive only by the efforts of Drs. J. Timmins and Robert N. Daley, who were constantly with him.

Those who were at his bedside when he died were his two brothers, Patrick and Jeremiah O'Callaghan; his two nieces, Elizabeth and Anna O'Callaghan; his nephew and his nephew's wife, Dr. and Mrs. Denis O'Callaghan; the two doctors in attendance, Drs. Robert N. Daley and P. J. Timmins, the curate of his church, Fr. M. C. Gilbride, Fr. Henry Lyons and Fr. Edward Costello, and his most intimate friend, the Rev. P. J. Lyons of the Carmelite Hospital and chaplain of the Nightworkers' Chapel.

The time for Mr. O'Callaghan's funeral has not yet been decided upon. Today at 11 o'clock a consultation was held with Cardinal O'Connell to make all the arrangements for the funeral. It may be held Monday.

Born in Ireland, 72 years ago, Denis O'Callaghan emigrated when very young with his family to Salem, where he attended school. Later he entered St. Charles College, near Baltimore, and went from the city to St. Mary's Seminary in the same state, where he completed his theological studies and was ordained by the late Archibishop of Baltimore on June 29, 1865.

Coming immediately to Boston, Fr. O'Callaghan served for two years as assistant priest of St. Peter and Paul's Church, South Portland, at the end of which time the Irish-American population had grown so much proportionately that it demanded the formation of another parish in that district. To Fr. O'Callaghan was entrusted the task of organizing and caring for the new parish. He remained upon this work in August, 1868.

Under his guidance the parish grew and prospered to such an extent that seven years later the magnificent church of St. Augustine was erected on Marlboro street at a cost of more than a quarter of a million dollars.

In 1880 Fr. O'Callaghan received the degree of doctor of divinity from

NEW MIDNIGHT TRAINS

Report on Patronage
Covering 22 Mornings

BOSTON, March 21.—A report on the business done by the three recently inaugurated midnight trains from Boston for the 22 mornings they were run, during the month of February was made yesterday. Whether this business, if it does not improve, is sufficient for the railroad commission to order their continuance beyond the test period of three months is in question. The total carried out of Boston was 742 passengers.

The heaviest patronage of the three went to the New Haven line, which leaves the South station at 12:05 a. m. for Wollaston, Quincy, Montello, Brockton and Campello. On the 22 mornings this carried 2947 passengers, an average of 131 per trip, the greatest number going to Quincy and Wollaston.

More than a third of the passengers, or 1156, were carried on the three Sun morning trains, making an average for these days of 39 per train, while for other mornings the average is only 24 per train. This rule also holds for the other two trains.

The Boston & Maine Portland division train, which leaves the North station at 12:01 for Haverhill and way stations carried 2253 passengers, or 102 per

trip, and took in revenue of \$185.06, an average of \$2.04 per trip.

The Boston & Maine Southern division train, which leaves at 12:01, runs to Lowell, carried more passengers, but made less earnings. Its passengers were 2282, an average of 102, but its receipts were only \$355.86, or \$1.73 per trip.

The patronage varies considerably for different mornings—that is, for the nights before. Next to Saturday nights

came Feb. 22, a holiday, while other

nights of extra business seem to have been those of Feb. 23 for all three lines and Feb. 5 for the two Boston & Maine trains.

The following table shows the number of passengers reported carried on each train for each morning of their operation during February:

OLIVER STREET FAMILY

Four Members Are Seriously Ill

It was thought that the drinking water was the cause of it all, and consequently the board of health was notified. An investigation, however, disclosed the fact that the players are in good condition, and that the illness must have been caused by either the food or the temperature. All are now on the road to recovery.

DEATHS

Four members of a family living in Oliver street were suddenly taken ill Wednesday, and the family physician was summoned. He at first thought he had a case of poisoning to deal with, but after an examination it was found that the four people were suffering with diarrhoea, and inasmuch as new water pipes had recently been installed in the house, the physician

JERRY WAS KICKED OUT TALKING PICTURES HERE TOWN OF BILLERICA

And Newell Putnam is Glad of it

HORSE THAT KILLED TWO MEN AND INJURED OTHERS

Plunged From Landing in New Hampshire Lumber Woods and Was Killed

Jerry, one of the worst horses that ever came to Lowell, has passed on to the carriageless shore. Jerry was one bad actor and if you will ask the present superintendent of streets, Newell F. Putnam, what's the matter with his ear, he will tell you all about Jerry, for it was Jerry that put debts in Mr. Putnam's organ of hearing.

Just where Jerry was born is more or less a matter of conjecture, but, as far as behavior was concerned, he was of little credit to the land of his birth. When purchased by the city of Lowell it was believed that he was a Kentuckian and it was a fact his disposition belied his name.

Jerry was a handsome bay and a nettesome roisterer when he felt like it. He had all kinds of faults and he killed at least two men during his short stay in this strange world of ours. He was a "bolter" and that was probably his very worst fault. Charlie Morse, the ex-superintendent of streets was the only man who ever had any real love for Jerry and Charlie said he loved him because he was so "cussed ugly." Newell F. Putnam never had any use for Jerry and the feeling seemed to have been pretty thoroughly reciprocated. Jerry tried several times to pass the funeral notice to Mr. Putnam and, one day in Varnum avenue, he came within an ace of succeeding. There was a steam roller doing business in the avenue and Jerry, playing his hand for all it was worth, pretended not to notice the roller until he got directly opposite it and then he bolted and plunged throwing Mr. Putnam from his seat. It was feared by those who had witnessed the trouble that Mr. Putnam was a goner. He was badly bruised about the head, face and body and his right ear was badly damaged. He was removed from the scene of the accident to the hospital where he remained for several weeks.

Just because he couldn't behave himself in a light hitch Jerry was assigned to dump cart work, but it didn't take him long to bolt and kick himself out of a job. Then he remained in the street department stable for several weeks and the man who volunteered to exercise him was considered as brave as the men who went to war.

Jerry had been in the possession of the street department for some little time before his past history became known and the man who had occasion to use him was just a little bit alarmed to learn that he had killed a man in Manchester, N. H. before coming to Lowell.

Well, to make a long story short, Jerry was sold at auction in Boston and brought less than one-quarter the amount paid for him. The man who bought him lived somewhere around Boston and about three months ago it was learned that Jerry had killed another man and that a few weeks later he assisted in bringing about his own demise. The scene of Jerry's death was laid in the lumber regions of old New Hampshire. He was sold in Boston to a lumber concern and was sent to New Hampshire to work in the woods. Just how Jerry served in the capacity of "bushwhacker" is not known, but the story has it that one day, while pulling logs to a landing, Jerry became obstreperous and in the height of his tantrum he went over the landing and into the brook. The landing was about 30 feet in height and so sudden was Jerry's death that he probably never knew what happened to him.

Supt. Putnam admits that he was more afraid of Jerry than of the street commissioner who threatened to fire him on several occasions.

SALISBURY BEACH CASE

Validity of Recent Act to Be Passed Upon by Supreme Court on Next Monday

Arguments will be made before the full bench of the supreme court next Monday by Attorney Walter Coulson of this city, representing the Salisbury Beach commission in their fight to retain title to land at the beach.

Attorney Essex S. Abbott, representing the state reservation commission, appointed by Gov. Foss, will not be able to argue on Monday, and he has been granted an extension of time until April 1 in which to submit a brief.

An agreed statement of facts has been submitted to the full bench. The associates contending that the act creating the state reservation is unconstitutional, as by it the state is, through its commissioners, virtually engaging in the real estate business. The commission on the other hand claims title to the property by right of eminent domain for the purpose of establishing a reservation.

The associates claim title through purchase from E. P. Shaw and the Salisbury commissioners, who originally held title.

Contagious Hospital Commission

Now that Dr. Martin, Dr. Louroux and Mr. Robinson have resigned from the contagious hospital commission, Dr. McCarty, the "unrestored" member, has the field to himself and it is to be said that while the other three members have resigned the opposing faction still remains, for Dr. McCarty, as a rule, played a lone hand in the discussion of hospital sites, etc.

The mayor, of course, is still member, ex-officio, of the commission, and now it is to his Honor and Dr. McCarty to row or get out of the boat.

It is hardly possible that they will advertise for new members; men long on

hospital knowledge and short on land for sale, for Dr. McCarty plants his No. 5 down with great energy when anybody suggests the purchase of land for a contagious hospital.

Society to Meet Mrs. Wilson

WASHINGTON, March 21.—Arrangements were completed today for a breakfast on April 3 at which the local society women formally will become acquainted with Mrs. Woodrow Wilson and Mrs. Thomas Marshall, wives of the president and vice president.

The breakfast will be given by a committee of Washington women and will be semi-formal. The guests will include Mrs. Champ Clark, wife of the speaker of the house and the women of the cabinet circle.

TOWN OF BILLERICA

Newspapermen Enjoyed Performance at Keith's

Annual Report is Now Being Distributed

The pictures that talk are in town and it was the pleasure of a party of newspaper men to view them at Keith's theatre through the courtesy of Manager Will Stevens.

There are and have been alleged talking pictures which are and have been quite interesting, but once one hears and sees the Edison talking pictures which will be offered to the public of Lowell for the first time next week, all others fade into insignificance. Like crude imitations before the real article.

The synchronism between the voice and the picture has been the stumbling block which Edison had to overcome to make his latest invention a success. That he succeeded beyond the semblance of a doubt was most charmingly exemplified at the exhibition given this morning.

The first picture showed an elaborate scene in a drawing room into which enters a gentleman in evening clothes who immediately starts an eloquent explanation of the nature of the Edison talking picture. Sure enough the words fitted perfectly to the motions of the speaker's mouth and then he had been speaking a moment the record was complete and the audience imagined that the picture had come to life and was addressing him personally. He then stated that he produce other familiar sounds to exemplify the perfect synchronism. Then he began to sing and dropped a plate on the floor and then introduced a gentleman who proceeded to play a classic on the piano. Two barking dogs appeared in the picture, both becoming silent at the raise of their master's finger. Then a female artist rendered "The Swanee River" on the violin. The picture was a little soprano singing "The Last Rose of Summer," the music and action of the players being in perfect harmony. A few more remarks on the invention itself closed the first picture. As the gentleman in the picture remarked, one can but an idea of the mechanism of the instrument when he considers that the eloquence of the orators of today and the melody of the singers of the present may be perfectly reproduced along with their living likenesses 100 years hence.

The second picture was a minister show and in the interior managed to give a few scenes of typical New England life. Among other things Minister Stevens called attention to the fact that there was a possibility of the picture starting before the talking machine, but he stated that the operator could instantly note the lack of harmony and make the adjustments perfect in a twinkling. As if to illustrate this the minister started a second before the talking machine, but before the interlocutor had said more than three words everything was in harmony, the words corresponding with the movements of his lips. This picture included a regular minister, first part with orchestra and men, jokes, solos and choruses. Among the numbers was "Silver Threads," a tenor solo sung by a young man with a sweet tenor voice. In this number the sounds of the voice were perfectly reproduced even without the interlocutor's aid, sounding in such harmony with the eloquence of the singer's mouth that one found it difficult to believe that he was not listening to the singer in the flesh. The story of the mechanism of this wonderful invention has been previously told in these columns. The results are all that have been claimed for them.

SPLENDID PHOTOS

Of Massachusetts Delegation at Inauguration Received in This City by Lowell Men

Humphrey O'Sullivan, Hon. James B. Casey, Lawyer J. Joseph O'Connor and John V. Donoghue have just received splendid photographs of the entire Massachusetts party at the inauguration of President Wilson, taken on the White House grounds with the members of the governor's staff, the officers of the Eighth regiment, and the officers of the second corps of cadets. The photographic measure over four feet long and 8 inches deep, and are surely extraordinary works of art. They make a fine souvenir for the Lowell men fortunate enough to be present at the inauguration in the official party.

COULD NOT STRAIGHTEN UP

A Peculiar Condition Removed

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmer's advertisement and made up my mind I would try Swamp-Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmer's Swamp-Root removed all the difficulty and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmer's Swamp-Root to anyone suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

Arthur B. Webster, superintendent of schools objects to the old form of marking pupils and has proposed the following plan:

Record marks in scholarship in the school record book once a month. Instead of once a week. These marks should be considered as entirely private. They should not be shown to the pupils at all, and to the parents only in special instances.

Send home once a quarter report cards showing: a—Statistics of attendance—sessions absent, times tardy, times dismissed. b—List of studies pursued c—A plain, simple statement by the teacher in regard to the work of the pupil for the month.

In addition to the regular report sent home once a month, send a special report home the moment a pupil falls below a proper standard in any subject.

In this way the parents will be informed immediately if things are not going right in school, and will not be compelled to wait until the end of the quarter for such important information.

Keep much of the written work in arithmetic, spelling, history, geography, composition, etc., in neat portfolios, and send home frequently for inspection.

tion by the parents. By having a continuous series of papers in each subject, the parents can tell at a glance the character of the work done, and can notice the improvements made from month to month. In case, however, that a pupil is making no improvement, but is growing, the parents can see this work.

Mr. Webster also suggested that more industrial education be given the pupils and especially those of the eighth and ninth grades. Additional rooms are needed in the public schools, especially in the Pollard school at the Centre.

The report of the police department shows that 47 arrests have been made while the number recorded last year was 39.

Bank to Open

GREENFIELD, Mar. 21.—The Greenfield Savings bank which was closed by the sayings bank commissioner in February will be opened on April 1. Commissioner Thorndike today sent notices to the several thousand depositors that the conduct of the institution would be restored to the trustees. The assets of the bank according to the commissioners are \$3,653,407 and the deposits \$2,848,075. The depositors will receive the full amount of their principle on deposit, together with a three per cent. dividend and interest since last November.

WITH THE FRATERNITIES

Owls Held an Interesting Meeting

CONSTANT GROWTH MANIFEST IN
ROYAL ARCANUM

Other Societies and Lodges Are Active
and Class Initiations Are Being
Planned

The regular meeting of Lowell Council Royal Arcanum was held last night in the Centralville Lodge. A well-attended meeting and during the evening considerable important business was transacted.

The meeting was opened with a reading of the Royal Arcanum in this city. On

next Tuesday evening, March 25, a class initiation is to be held and it is expected that there will be a large number of candidates. Arrangements are being made by

holding rehearsals for this event. At the close of last night's meeting refreshments were served and an entertainment enjoyed. Whilst was played and the evening was a most pleasant one for all present.

Another council of the Royal Arcanum in this city, namely the Industry council, held a regular session last evening and in the division of the order, also growth is manifested. Important matters were discussed during the meeting last night and applications were received and acted upon. Several reports from the committees reported on their activities and these reports in every case showed progress. In the worst tournament it was reported the Highland council is to be the host for the next meeting for the lodges.

The secretary committee is engaged in arranging a series of mutual entertainment and socials which will be held in the near future. Preparations are complete for the joint initiation on next Thursday evening. The council voted to send a letter of thanks to James J. Gairin for the deliciously interesting lecture which he delivered in Mathew Hall on last Wednesday.

The next meeting of the Centralville Lodge, I. O. O. F.,

Members of Centralville Lodge, I. O. O. F., met in regular session last evening and transacted important routine business.

The entertainment committee through its chairman, J. E. MacCallum, made a

most encouraging report of progress. Arrangements are about completed for a celebration, the particulars of which have not as yet been decided.

Last night several of the ex-members of the organization were present.

The quiet tournament was to have been opened after the meeting but the officers did not put in an appearance and a scrub team had to be gotten up to compete.

The Past President C. W. Richards was presented a past president's jewel.

President Bowers on behalf of the nest made the presentation speech. Mr. Richards' feelings expressed his appreciation of the honor shown him, and his confidence reposed in him.

Interesting and encouraging remarks for the good and welfare of the nest were made by Trustee H. E. Flinn and J. J. Tracy and by Secretary Rogers, Dr. H. B. Thimkett, Dr. Wesley M. Sawyer and Treasurer J. A. Ralley.

The next meeting of the nest should be of much interest to all the members as the quarterly report of the officers will be made.

Lowell Lodge, K. of P.

Members of the Lowell Lodge, K. of P., held a regular meeting last night with good attendance and the session was a very interesting as well as instructive one.

There were several applications for membership and a number of initiates were elected and will be initiated at an early date.

Lowell City of Lowell

Lowell City of Lowell, F. of A. held a well-attended meeting in the Odd Fellows building and transacted business of the nature. Several communications

were read and committee

parted progress. The following were

and the court listened to an address from the district deputy, Narcissus Gadbois.

Elgin Lodge, N. E. O. P.

Elgin Lodge, No. 165, N. E. O. P., held a well-attended meeting last night in Veritas hall, Branch street and a large amount of routine business was transacted.

Sisters Hattie A. Burrows and Elizabeth Chadduck, representatives to the grand lodge session

on March 12 in Boston, made their reports of the business transacted.

Following the reading of the reports, the new degree class had a rehearsal.

HARRISBURG, Pa., March 21.—Under a resolution approved by Gov. Tener yesterday, soldiers who served in the Confederate army and who are now citizens of Pennsylvania will be invited to be the guests of the state at the semi-centennial celebration of the Battle of Gettysburg, in July. All who accept will receive transportation from any point within the state and will be provided for at the celebration.

The resolution also requests the commission having the celebration in charge to provide transportation and maintenance for all Union soldiers, sailors and marines of the Civil war who enlisted in Pennsylvania and who are now living outside the state, provided they come to the border of the commonwealth. All other Civil war veterans now residing in Pennsylvania, no matter from what state they enlisted, are also invited to be the guests of the state.

SICK CHILDREN

Left in Burning House Until Health Authorities Released Them from Quarantine

MALDEN, March 21.—While their three small children, who had been quarantined with measles, tried to be taken out of the burning house, Jas. Campbell and his wife refused to heed their pleadings until they had secured permission from the board of health to take them from their home, 27 Mills street, Malden.

While the upper part of the house was a mass of flames, the children, one a babe of less than 2 years, another, 3 years, and the third, 5 years, called, "Mamma, please take us out. We'll get burned."

A telephone message was at last sent to Dr. Samuel Miller of the Malden board of health, who told the parents to take their children to a place of safety—to a neighbor's house, if any neighbor would permit them.

Then the little ones were taken from the burning home.

In a few minutes Dr. Miller arrived in an automobile and took the children to the Malden Contagious hospital. They were suffering badly from fright, but had sustained no injuries by their thrilling experience.

A Great Chance for the Public to Buy at Cut Prices

A piano sale here is always a sacrifice, always a bargain sale, always a markdown sale. The very nature of the business here is one of sacrifice. The business here is not conducted like the business of a regular piano store where they are expected to make a profit on each piano. We don't let any piano loaf around our doors; a sacrifice tag is clapped on which on the face of it reads "Competition" and on the back it is sold that we may or cannot afford the price marked on the tag. Price doesn't mean anything at these sales. We cut none, and we give none. In sales all makes alike; we ask no favors, we want none, and we give none. HYOMEI Medicates the Air You Breathe and Gives Quick Relief In Catarhal Troubles

Be wise in time and use HYOMEI at the first warning of catarhal troubles. Do not let the disease extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then downward until the lungs are reached and you are in danger of consumption.

HYOMEI will relieve all curable forms and stages of catarhal. It is so uniformly successful in curing this common yet dangerous disease that Carter & Sherburne take all the risk of a trial treatment and agree absolutely to refund the money if anyone uses HYOMEI and does not get relief. There is no other treatment for catarhal that is like HYOMEI or just as good. None can take its place and it gives such quick and sure relief and at so little cost. Its medication is breathed through a pocket inhaler that comes with every outfit, thus reaching the most remote cells of the air passages, killing the catarhal germs and soothing and healing the irritated mucous membrane.

Begin the use of HYOMEI today and you will soon find that the offensive breath, the droppings into the throat, the discharge from the nose, sniffing and all other symptoms of catarhal are overcome and cured. The complete outfit costs but \$1.00. Extra bottles of liquid, if later needed, 50 cents at Carter & Sherburne's and druggists everywhere.

One pill after each meal will quickly build up the health run down by worry, overwork or any unusual drain on the system. One box of Dr. Williams' Pink Pills contains two weeks' treatment.

Mr. F. H. Morse, of Whitehall, Mich., says: "For ten years I never knew a well day. The break-down was gradual at first, growing more alarming and complicated as the years went by. It would be difficult to tell all the various ailments I had. I was sick all over. I suffered intensely from stomach and intestinal trouble. My entire nervous system was completely prostrated. Natural sleep I did not know for years, existing only on the sleep procured by drugs. I was thin and exhausted and the doctors pronounced me incurable. There was a full feeling in my stomach and food distressed me. I seemed to get no benefit from the food that I ate. I had a weak heart which fluttered badly. I also had headaches. I was so weak that I could hardly help myself. One day I decided to give Dr. Williams' Pink Pills a trial. I took the pills faithfully three times a day, also being careful to eat only good, nourishing food, exercise in the open air and to go to bed regularly. At the end of three months I had gained surprisingly and at the end of six months I was well. I could sleep naturally and my stomach and head felt in a normal condition again."

The booklet, "Building Up the Blood," is free upon request.

Dr. Williams' Pink Pills are sold at all druggists for 50 cents per box; six boxes, \$2.50, or directly by mail, postpaid, by the

"Masher" Fined \$500

BUFFALO, N. Y., March 21.—Leon D. Varlet, a waiter, must today pay a fine of \$500 or begin to serve 18 days in the penitentiary—the heaviest sentence imposed on a "masher" in the history of the city court. Varlet was convicted of pressing unwelcome attentions on a 16-year-old girl while riding on a Niagara street car.

How to Lure Farmers

WASHINGTON, Mar. 21.—More than 40 per cent of all the farmers interviewed by government representatives believe that experience is the only way to learn how to farm. This percentage told agents recently sent out by the department of agriculture that they took no such in farmers' institute demonstration agents, farm papers or department of agriculture publications as aids in helping to make the soil more productive.

AMUSEMENT NOTES

The Playhouse

TODAY, Good Friday, The Playhouse will be closed all day. This means that only two more opportunities remain to witness Edw. F. Payne's unmasked play which is being given this week and which will be given a title Saturday afternoon. Next week Chauncy Olcott's trial drama, "The King of Clans," will be given, and a portion of the receipts of Monday night will be given to the St. Patrick's day parade fund. Members of the local divisions of Hibernians and others should realize the importance of having a large attendance at these three performances, more especially the first

How to Lure Farmers

WASHINGTON, Mar. 21.—More than 40 per cent of all the farmers interviewed by government representatives believe that experience is the only way to learn how to farm. This percentage told agents recently sent out by the department of agriculture that they took no such in farmers' institute demonstration agents, farm papers or department of agriculture publications as aids in helping to make the soil more productive.

HYOMEI Medicates the Air You Breathe and Gives Quick Relief In Catarhal Troubles

Be wise in time and use HYOMEI at the first warning of catarhal troubles. Do not let the disease extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then downward until the lungs are reached and you are in danger of consumption.

HYOMEI will relieve all curable forms and stages of catarhal. It is so uniformly successful in curing this common yet dangerous disease that Carter & Sherburne take all the risk of a trial treatment and agree absolutely to refund the money if anyone uses HYOMEI and does not get relief. There is no other treatment for catarhal that is like HYOMEI or just as good. None can take its place and it gives such quick and sure relief and at so little cost. Its medication is breathed through a pocket inhaler that comes with every outfit, thus reaching the most remote cells of the air passages, killing the catarhal germs and soothing and healing the irritated mucous membrane.

Begin the use of HYOMEI today and you will soon find that the offensive breath, the droppings into the throat, the discharge from the nose, sniffing and all other symptoms of catarhal are overcome and cured. The complete outfit costs but \$1.00. Extra bottles of liquid, if later needed, 50 cents at Carter & Sherburne's and druggists everywhere.

GOOD FRIDAY SERVICES

Held in All the Catholic
Churches Today

THE SERVICES OF A MOURNFUL CHARACTER

Meditations on the Crucifixion of the
Saviour and Veneration of the
Cross

Today, Good Friday, in the Roman Catholic churches is the most profound of all the Holy Week for the services are held to commemorate the death of Christ, the Saviour of mankind, upon the cross. It is a day of mourning, therefore, and all the services are directed to that purpose.

The Good Friday services were held in all the Roman Catholic churches throughout the city at different hours, according to the custom of each particular house of worship, and in every instance large congregations were present to assist. This solemn day of mourning was observed with the im-

pressive ceremonies, in which all the energy of the church took part.

So it is, that although no actual mass of consecration is celebrated, nevertheless, there is held what is known as the mass of the presentation. At the mass on Holy Thursday (yesterday), two Hosts were consecrated and one of these was for the service today.

Since the entire observances of Holy Week are taken up with the commemoration of the sufferings of Christ, the reading of the passion of our Lord took place again at the services of today. The services today opened with the reading of a lesson from the Prophet Omer, chapter VI, which opens with the following passage: "In their affliction they will rise early to me and say: Come, let us return to the Lord; for He hath stricken us and we will heal us; He will strike and we will cure us. On the third day He will raise us up and we shall live in His sight."

These words precede the entire service, as an expression of consolation, and are read by the priest at the altar after he has prostrated himself before the altar.

Then follows reading from the other prophets and finally the mass of the presanctified is celebrated. The psalm read today was that taken from the gospel of St. John.

The services took place at the various Catholic churches throughout the city at different hours this morning; at some the mass of the presanctified began at 5 o'clock, together with the other Good Friday ser-

vices, while at others the ceremonies were held at 8:30 and 9 o'clock. This afternoon at 3 o'clock the stations of the cross will be observed at the various churches.

This evening there will be the tenebrae service, starting at half past seven o'clock and at this service, a special sermon on the crucifixion or some kindred subject will be preached.

Last night, in a majority of the churches the tenebrae services were held and were attended by large congregations. Very many followed the custom of going about and visiting the repositories of the various churches and nearly all of the houses of worship were filled until late hour last evening.

This afternoon and evening a feature of the services will be the veneration of the cross, the emblem of man's redemption.

Tomorrow morning the Catholic churches about the city will hold the regular Easter Saturday ceremonies, consisting of the blessing of the holy water and celebration of the mass. The choir will be in attendance and accompaniment on the organ will be resumed. There will be no services in the evening.

HER BODY UNCLAMED

Three Insurance Policies Found In the
Trunk of Mary Mark at Manchester,
N. H.

MANCHESTER, N. H., March 21.

The body of Mary Mark remains unclaimed at a local undertaking establishment yesterday, though efforts are being made to find some relative.

It has been several days now since she was found at 113 Elm street, and it will be necessary that somebody come forward in the course of the next 24 hours or the body will be turned over to the city or county authorities.

The master was today placed in the hands of Overseer of the Poor, Bourdreau. His attention was directed to the room in which the woman was found Monday evening, but he could discover nothing to establish the rumor that she died leaving considerable property. It was, however, learned that she owned a trunk, but that it was held, pending the payment of a \$65 room and board bill.

The person holding the trunk was interviewed and with his consent the trunk was opened. In it was found a bank book with a deposit of \$1 and three insurance policies, two of which were for \$192 and \$201, respectively, and one for \$100.

NEW CAPS FOR POLICE

Mayor O'Donnell Has Adopted New Style Which Will be Ready by April 15

Superintendent Redmond Welch of the police department has received various samples from several hats supply houses for caps for the patrolmen and the same have been submitted to Mayor O'Donnell.

The mayor later wrote a letter to the superintendent recommending the adoption of the sample supplied by Putnam & Sons of this city, for the reason that the goods are of better quality and the prices very satisfactory and also for the fact that the said firm is a local concern. The caps are to cost \$1.50 apiece and are to be purchased by the patrolmen. The department will supply the officers with new shields and badges, and the new caps it is expected will be ready for use by April 15.

New French Cabinet

PARIS, March 21.—Jean Barthou, minister of justice in the retiring French cabinet has agreed to form a new ministry. He called on President Poincaré at the palace of the Elysée this morning and informed him that as the result of inquiries he was sure of an ample majority to support him in the chamber of deputies and probably also in the senate, at least, until the question of proportional representation comes up again for discussion.

The Giants are going in for social affairs as well as baseball at their training camp at Marlin, Texas. They wound up their stay by giving a full dress dance at one of the hotel ball-rooms and from all accounts it was a real party. Myers and Thorpe were right there strong.

Ralph Rose, the giant weight-man from California, celebrated his birthday last Monday by putting the 16 lb. shot eight inches beyond the present world's record but the mark was not allowed because the regular A. A. U. officials were not present at the meeting. Rose was 25 years old last St. Patrick's day.

Sam Crawford has at last been taken into the Tiger fold, or rather, has sought shelter there. The Detroit outfielder has been signed up for the same stipend that he received last year, \$5000. This seems to have ended the much talked of Tiger holdout club. Any club with Cobb and Crawford in the lineup is liable to give the sports writers some choice topics to discuss.

The T. M. C. A. swimmers are putting in some hard work these days perfecting themselves in the different strokes. The absence of Coolum, who left town for Florida the other day, will weaken the team in the plunges but there are several heavy men who Physical Director Wickey thinks will make ideal divers.

Morris Harris, the young attorney, has been offered a contract with the Peoria, Ohio, club but has turned it down. He has decided not to play the game as a professional. Harris has played an important position with many of the local teams during the past few years and is well known in semi-pro circles.

Manager Jesse Burkett is after another youngster, "Boots" Chapman, for Quincey is latest to leave local players. He has taken the eye of the World's champion, Jesse will have some difficulty in landing him, too, from all accounts. Chapman is captain of the fast Quincey A. A. Basketball team, an aggregation which is a "slimon pure." If he goes into professional baseball it will necessitate canceling his amateur standing which is unwilling to do. Chapman is a catcher and plays that position on the Makaria team of the Quincy City league.

There is a rumor in the Athletics' training camp that Strunk has lost the use of his throwing arm. He has done but little work with it since the southern trip started and, though he has not stopped working back, as at first suspected, the crack outfielder has thrown away his arm. Dr. Chadwick, the club trainer, refuses to admit it, however. If it later develops that this is the fact of the matter Connie Mack will have a hard job filling this player's shoes this season.

The Red Sox have two men on the temporary sick list. Gardner has a lame arm and Bedient has a bad foot.

BRITTON DEFEATS BROWN

Chicago Man Wins Easily in New York—Joe White Is Beaten by Dave Kurtz

NEW YORK, March 21.—Jack Britton of Chicago gave Young Brown, the local light weight, a boxing lesson in the 10-round bout at the Atlantic Garden A. C. last night. Britton earned the honor of each chapter. Neither scored a knockdown.

Joe White of Boston received his first setback. He was forced to take second honors to Dave Kurtz, the Newark welterweight, in their 10-round bout. Kurtz outpointed the Bostonian in 7 of the 10 rounds. White did not keep coming back for more. If an expert could tell him what he knew, the box could give one nothing remains to be recovered except his former speed. Here's hoping that you hit that old pace, Joe.

STREET RAILWAY SERVICE

Lawyer Regan Renews Plea for Improvement

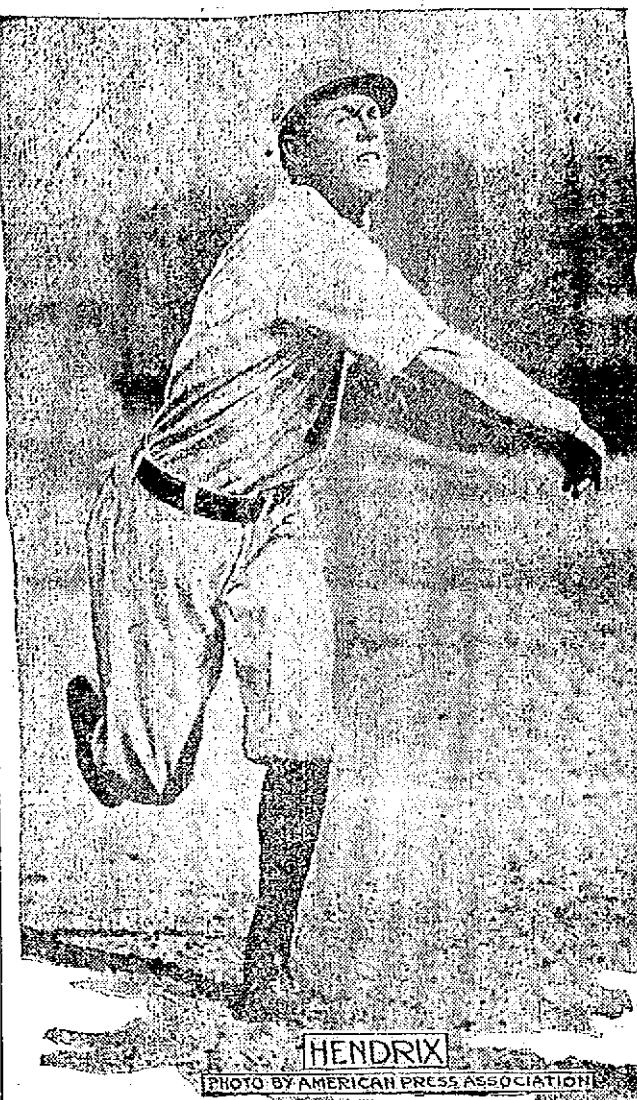

Some time ago Lawyer William D. Regan appeared before the municipal council petitioning that body to do something to improve the street railway service in Lowell, including a revision of the price of fares charged and also a change in the running time on certain lines.

His contention at the time was that in comparison with the city of Fall River the residents of Lowell were not enjoying the privileges given by the railroad company in the former city. Lawyer Regan has now forwarded a communication to the board of railroad commissioners, which covers practically these same points, asking that his complaints be investigated and relief granted.

Last week's games increased the win column of both the Nationals and Tremont & Sutfolk by three points, the T. & S. rolled 1371 to the Nationals 1350. McDermott captured the prize Monday with a single of 112. C. Farrell Tuesday with 124.

John Hanley the "Silent Knight" of the L. O. O. M. was off color last week. A. Dyer has received more bad breaks than any man in the league. Halkenny's "Ceiling Ball" has averaged 101.5

CLARKE SAYS HENDRIX WILL BE PITCHING SENSATION OF LEAGUE

HENDRIX

PHOTO BY AMERICAN PRESS ASSOCIATION

HOT SPRINGS, Ark., March 21.—Fred Clarke, manager of the Pittsburgh Nationals, who, as a rule, is not in the habit of publicly praising the work of any of his pitchers, is out with his statement that Claude Hendrix, the Pirates, young heaver, will be the sensation of the National league this season. Clarke says that no twirler in the parent organization has improved as much as Hendrix. Last season he made a great name for himself in the box, but Clarke looks to the youngster to sparkle this year.

er, Ida, and told him to bring Johnson to Washington. This was done and one of the greatest pitchers in the recent history of the game was obtained.

Frank Navin of the Detroit club was one of those to get a tip on Johnson, but he failed to take advantage of it, and he has had reason to regret it many times. Navin tells this story of the incident:

"A doctor friend of the Detroit club saw Walter Johnson pitching in Idaho two months before the pitcher went to the Washington club. We were tipped off to Johnson's prowess, but we were shy on scouts at that particular time and before we did get a man into the western state Johnson had been signed by Washington.

"Had we been able to act on the information immediately on its receipt Johnson now would have been a member of the Detroit club."

"Del Gainer was tipped off to us by a friend in Virginia, and one of our scouts reported favorably on the player shortly thereafter."

"It is an actual fact that no less than five big league clubs had been tipped off on Walter Johnson when Washington secured him, and ever since that time ball clubs are taking no chances of overlooking a star by refusing to act on the suggestion of some novice."

"Johnson going to Washington was really the result of an accident. Joe Cantillon had received several letters from a friend in the west telling him about Johnson. He had no one to send out and get Johnson until one day Blankenship, one of the team's catchers, had a digit split and, of course, that same day Cantillon received his letter about Johnson, and he hustled Blankenship on a train for Wels-

ton. It is a fact that Johnson was a sensation in the south last year, was tipped off by a traveling man from a Detroit seed corporation."

"There are numerous other players who have been sent to the Tigers by our friends, and we certainly appreciate information. Of course we receive hundreds of letters telling of the prowess of some player who may be in some remote club. As far as possible all such tips are now investigated, because it has been found a profitable undertaking."

Mrs. Anderson Gives \$650,000

GARDNER, March 21.—Chief of Police Timothy F. Shay, assisted by Frank M. Burns, Ernest M. Leland, Hubert Tel, William P. Clark, police officers, and Jefferson H. Parker with two detectives from the Watch and Ward society of Boston, raided six stores in the business section of Gardner yesterday afternoon and seized a wagon load of alleged gambling machines.

NEW YORK, March 21.—A gift of \$650,000 by Mrs. Elizabeth Wilkinson Anderson for social welfare laboratoris to be conducted by the New York Association for Improving the Condition of the Poor was announced by the association last night. The gift is the largest single one ever made to the association and so far as is known to any organization for similar purposes except the separate foundations, such as the Russell Sage Foundation.

"Every Little Olive Tablet Has A Movement All Its Own"

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Olive Tablets, the substitute for calomel, are potent in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities.

were only pouring lead into the bodies of the president and vice president, who were murdered in the palace hours before."

Bitter in his criticism of American Ambassador Wilson, Col. Alcalde declared the American diplomat had declined to intercede to save him from arrest and death.

Accompanied by his wife, two small children and his brother, Joaquin, an army captain, Alcalde fled from Mexico City Feb. 23, taking an obscure route to Salina Cruz. The party disguised themselves as peasants.

On reaching the west coast port they remained in seclusion 12 days, believing they would be killed if discovered by agents of the new government. They chartered a barge to reach Acapulco, whence they took passage with other refugees.

GOOD FRIDAY SERVICES

Will Be Held In Many Protestant Churches This Evening—Union Service at First Trinitarian

Services were held at St. Anne's church this morning at 9:30 o'clock and 12 noon. Addresses were given on the "Seven words from the cross" together with prayers and singing by the choir.

Today being Good Friday, an evening service will be held at 7:45 p.m. all are cordially invited to attend.

Congregational Union Services

A union service of the Congregational churches of Lowell will be held in the auditorium of the First Trinitarian church this evening at 7:45 o'clock. A meditation on the theme, "Beside the Cross," will be led by the pastors. The topics are as follows: "The Calvary," Rev. Edward H. Newcomb; "The Curious," Rev. C. R. Williams; "The Hostile," Rev. A. Frederic Dinnells; "The Sympathetic," Rev. F. G. Alger; "The Penitent," Rev. C. A. Lincoln, and "The Loving Disciple," Rev. A. C. Ferrin.

A Good Friday service will be held this evening at the First Universalist church with sermon by the pastor.

V. W. C. A.

At the Y. W. C. A., Sunday, the subject will be "The Meaning of Easter." All are invited to be present and talk on the subject.

MATRIMONIAL

The marriage of Rev. Solomon A. Abbott of Tewksbury, Mr. and Mrs. Samuel Abbott of New Hampshire, and Mrs. Abbie S. Merrill of 26 Grove Street, this city, was solemnized at 8 o'clock last night at the home of the bride, the officiating clergyman being Rev. A. Frederic Dinnells, pastor of the Highland Congregational church, only relatives and close friends witness.

The bride wore a gown of gray satin, trimmed with white lace, and carried a shower bouquet of pink bride's roses. She was attended by Mrs. Sarah Abbott, who wore a gown of black and white silk. The best man was Mr. N. M. Swain of this city. After the wedding a reception was held until 10 o'clock.

Rev. and Mrs. Abbott left on the 9:45 train for an extended wedding trip.

On their return they will be at home to their friends at 26 Grove street after May 1.

SENATOR GEO. T. OLIVER

Is Assailed by Striking Girls

PITTSBURGH, March 21.—United States Senator George T. Oliver is under fire from 3000 striking employees of the Oliver Iron and Steel company. The strikers recently marched from Socialist hall, South Side, across the river, and started rioting about the building where Senator Oliver has his office. Mounted police and the traffic squad persuaded the strike leader to

RIGHT CORSETS FOR ALL

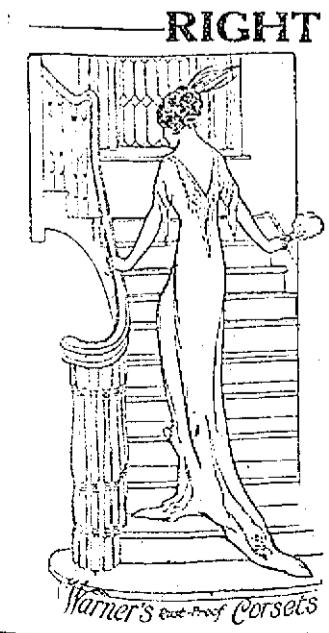

THE large woman may be majestic and stately or she may be shapeless and dowdy—it is all a matter of her corset and the way she wears it.

The manufacturers of WARNER Corsets do not recognize one type of figure-perfection only, but have planned so thoroughly for the needs of every woman that the tall, the short, the slender and the plump may be alike improved in figure and carriage.

You will never know the full beauty-possibilities of your figure, till you have worn the right WARNER model. Every pair guaranteed.

YOUR HAIR IS FLUFFY, BEAUTIFUL
AND LUSTROUS IN A FEW MOMENTS

GIRLS! GET A 25 CENT BOTTLE OF "DANDERINE" AND TRY THIS.
ALSO STOPS FALLING HAIR; DESTROYS DANDRUFF.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt, and excessive oil and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once.

Danderine dissolves every particle of dandruff; cleanses, purifies and strengthens the scalp, forever stopping falling hair and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knudtson's Danderine or any druggist or toilet counter, and just try it.

FOR SUMMER GOWNS

parments of the shops the first fabric to greet you will probably be the new dotted swiss. This swiss appears in an entirely different guise, with dots both in small and coin size, and with the most fascinating of borders. There are borders in Persian effects borders in delightful floral patterns and borders new and unusual, as well as staid, conventional designs. In fact, borders appear on all the approved materials of the spring and summer. Rating is another fabric that is insisted on this season. It comes in pastel shades for afternoon frocks, in dail colorings for street suits and in white for the dressy wear. All kinds of crepe weaves are in favor, and there is a chiffon named for a famous woman dressmaker of Paris that is a "tun" material of much importance.

The one piece frock is still popular, and it would be as difficult to count the various phases of this gown as it would be to count one's blessings. And, speaking of beneficence, this frock is the salvation of many women. Being in one piece, it makes them appear

slim.

A Wide and Beautiful Variety of Material

There is always something alluring about selecting materials for summer gowns, and this year the pleasure is intensified, for the daintiness, thin fabrics seem to be more charming in color and design than any we have known before. Newness in the style world always has a feminine appeal, but this season the cottons are unusually cool, dainty and crisp enough looking to meet the demands of the "hottest summer on record" or the most fastidious taste.

The Last Word in the Approved Fashion for Spring Is Clearly Defined In Our Peerless Showing of

New Tailored Suits

A veritable Promenade of Fashion, presenting in an almost endless succession of beauty and gracefulness the best models of both foreign and domestic design, in all the new Advance Spring fashions, new materials and handsome trimmings.

NEW SPRING SUITS

Variety is one of the predominant features of the new Spring Suits, allowing a freedom in choice of materials, fabrics and models to please even the most exacting tastes.

There is such a wealth of distinctly different models that the well dressed woman may select a style practically her own, and sure to retain its charm of newness and individuality.

THE BALKAN AND RUSSIAN BLOUSES

The newest notes of style sounded in the suits for Spring are of the Balkan Blouse and the short Russian Blouse, both of which are meeting with great favor among the up-to-date dressed women. Another effective model is the new cutaway coat, unusually graceful, accentuating the long, slim lines of the figure.

The skirts are narrow, following the fashionable straight lines, yet many of them are draped, belted and slashed, giving the appearance of fullness, and allowing greater liberty in walking.

MANY NEW MATERIALS AND COLORS

As models, so in colors and materials—a wonderful variety from which to choose. Among the materials are woolen and silk poplins and brocades, cotton and woolen sponges, silk moires, shepherd checks, Bedford cords, pin stripes and the staple serges.

Pronounced colorings are in the lead, including Nell rose, Labrador blue, pigskin, tete de negre, carrot, putty, taupes and two-tone stripes and other attractive new shades.

Fully 1000 New Suits

For your selection, every one a personally selected garment, correct in style, workmanship and material.

LARGE CONVENTION HELD

Of the Trades and Labor Council Last Night

The convention of the Trades and Labor council was held last night and in spite of the rain, there were many delegates present. During the evening important business was transacted with President Rourke in the chair.

There were received, read and placed on file, letters from Governor Foss and Senator Fisher. The secretary was instructed on vote by the delegates, to give notice to the senators and representatives that house bill No. 2167 giving driving clerks one day off in seven was introduced.

The millemen through their delegates reported that they will hold a social and smoke talk on Friday evening, April 11 and asked the support of the council. This request was granted.

The secretary was instructed to write to Commissioner Donnelly in regard to the treatment of the members of the local unions who are employed in the

AN ULTIMATUM TO MONTENEGRO

Austro-Hungarian Government
Dissatisfied With Reply on
Question of Scutari

VIENNA, Austria, March 21.—The Austro-Hungarian government is reported to be preparing an ultimatum to Montenegro owing to the unsatisfactory nature of the reply of Montenegro to the Austrian remonstrances on the question of Scutari.

The Montenegrin reply is considered here as creating a serious situation. A lively exchange of views is proceeding between the Austro-Hungarian and the Italian foreign offices in regard to John action by the two powers.

Austria, it is believed, will insist on enforcing the decision of the European powers that Scutari shall remain an integral part of the future autonomous state of Albania. It is not known what action is to be taken by the division of the Austrian fleet, which recently left for the Montenegrin and Albanian coasts, although they are officially de-

clared to be proceeding there to carry out maneuvers.

The most bitter feeling is expressed here both by press and public which the Montenegrins have reported their conversion of the Catholic Alans to the Orthodox faith by the Montenegrins, who are said to have said to offer the alternative of conversion or death.

The death of the priest Pali, who is said to have died a martyr to his faith, has caused denunciation of the Montenegrins.

SPECIAL SESSION OF GRAND JURY

Case of Mrs. Eaton, Charged With Murder of Husband, Will be Considered Monday

PLYMOUTH, March 21.—The grand jury will convene in special session here at 10 o'clock Monday morning to consider the case of Mrs. Joseph G. Eaton, who was arrested yesterday charged with the murder by poisoning of her husband, Rear Admiral Eaton. This became known today when Sheriff Henry S. Porter, who is in charge of the jail where the widow is confined, received instructions from Dist.-Atty. Barker to make the necessary preparation.

From her room in the county jail Mrs. Eaton sent a cheerful message this morning to her daughter by her first marriage, Miss Dorothy Ainsworth. The prisoner wrote:

"I want to tell you all not to worry about me. Don't cry and take care of it for it will all come out all right in a few days. Look after mother and don't allow her to become excited and be sure to take care of everything on the place."

Mrs. Eaton had learned that her mother, Mrs. George Harrison, who is ill at the Eaton home in Norwell was suffering intensely by the shock of her daughter's arrest.

The widow herself appeared optimistic and accustomed herself to the routine of jail life without complaint. All that she asked was to be allowed to do work or have some other exercise. "I have always been a very active woman," she said, "and cannot stand inactivity."

In conversation with the matron, Mrs. Eaton said that she did not expect to be confined more than a few days. She was given no work, but was permitted to exercise in the corridor under the eye of the matron. She spent the greater part of the forenoon writing letters to friends.

The hint from official sources last night that a second arrest might be made involves the purchase of the arsenic in pure white powdered form that was found in the digestive organs it was learned today. Thus far the

police have been unable to discover where the poison was obtained or who bought it.

Today State Detective Scott and Deputy Sheriff Condon went to the Eaton home in Norwell and remained some time with Mrs. Eaton's mother and her two daughters, Dorothy and Mrs. June Keyes. Mrs. Harrison and Dorothy made their home with the admiral. Mrs. Keyes has lived recently in Boston. It is understood that the will of the admiral will not be offered for probate until the investigation of his death is cleared up. It is believed he left little more than an insurance on his life of \$5,000. A will made some time ago in which both stepdaughters are named as beneficiaries is in the custody of Judge Pratt, who was the admiral's counsel. The judge has said that he knows nothing of a will reported to have been made about six months ago. Dorothy Ainsworth has said that her step-father once intimated that he had made a second will in which only herself was mentioned.

Dist. Attorney Barker Talks

District Attorney Barker today denied the widely circulated allegations that Dr. Frame, who attended the admiral during his last illness, had delayed his report that the admiral was due to unnatural causes. He said:

"Any suggestion that Dr. Frame's conduct in the Eaton matter was open to criticism is unwarranted. Quite

the contrary, he is entitled to highest commendation for his course throughout the whole matter, I say this knowing the circumstances."

John Whitman, the sheriff of Plymouth county, has asked for an additional \$15,000 county tax levy to pay the expenses of the Eaton case.

Deputy Sheriff George E. Hersey of Whitman today began serving summonses on the witnesses who will testify before the special grand jury next Monday.

that 14 persons were killed and an immense amount of damage done.

Storm Moving Northeastward

WASHINGTON, March 21.—A terrible storm that raged over the central states throughout the night was today moving northeastward, leaving a wake of destruction. Heavy property damage was reported from Tennessee and Kentucky, where the storm took the form of a severe shifting gale with heavy rains. Telegraph and telephone communication were crippled throughout the district south of the Ohio river and the storm moving northward and eastward over Ohio and Indiana, threatening further damage. The weather forecaster, after examining his reports, said:

"The storm is accompanied by severe shifting gales and widespread precipitation followed by a cold wave of unusual severity for this season of the year. Heavy snowfalls are reported at many points in the north central states and great damage has been done to electric wires, the storm cutting off communication throughout the middle west. The storm will move northward down the St. Lawrence valley, accompanied by general rains in the eastern state and lake region and the Ohio river tonight."

One Killed and Injuries Injured

SILVEREPORT, La., March 21.—One man was killed, several persons were injured and heavy property damage was wrought at Salling, La., a town of about 200 inhabitants in Bienville Parish by last night's severe windstorm, according to a report received here today.

Several houses were blown down in Gibsland, another town in Bienville parish and several thousands of dollars of property damage was done. A house in Gibsland was lifted from its foundation, carried through the air for over a thousand yards and deposited outside the town.

Fifteen Persons Killed

MOBILE, Ala., March 21.—Late advice is to the effect that 15 persons were killed at Lower Peach Tree on the Mississippi river.

Boy Killed and Others Injured

DECATUR, Ala., March 21.—A white boy, Joel Sherrill, aged 8, was killed outright and a number of negroes are reported killed by the cyclone which struck this section last night.

Buildings Inundated

ANNISTON, Ala., March 21.—About 1000 workmen were thrown out of employment temporarily as a result of a cloudburst which struck this city and vicinity last night. Seven industrial plants were inundated.

Two Deaths in Indianapolis

INDIANAPOLIS, Mar. 21.—Two lives were lost and several persons probably fatally injured today by a wind storm which wrought havoc through the state, causing great damage to property. Omer A. Vice, a cab driver at Frankfort, was killed when the roof of a building struck him.

Henry Walters, a workman at Lafayette was crushed to death underneath a falling sign. A large electric sign here took part of the roof of a building when it was blown down, and falling brick struck Patrolman Robin-

GROVER CLEVELAND'S BIRTHPLACE NOW
RANKS AMONG THE NATION'S MEMORIALS

Left to Right: ESTHER and RICHARD C. CLEVELAND, MRS. T. J. PRESTON, MR. PRESTON, MARION CLEVELAND.

CALDWELL, N. J., March 21.—The little parsonage of the Presbyterian church here, the birthplace of Grover Cleveland, has taken its place alongside of Mount Vernon, Monticello and The Hermitage in the history of the nation. The deed for the property has been transferred from the old parish to the Grover Cleveland Birthplace Memorial association, organized to beautify and maintain it. The occasion of the transfer also signaled the seventy-sixth anniversary of the late president's birth. Mrs. Frances Folsom Cleveland Preston, former wife of President Cleveland; her husband, Professor Thomas J. Preston, of Wells college; and the Misses Esther and Marion Cleveland and their brother, Richard Cleveland, attended the exercises. John H. Finley, head of the College of the City of New York and president of the memorial association, opened the exercises, and Mayor Espy welcomed the visitors, giving at the same time a brief historic sketch of the "Old Mans" as the parsonage has been called since the Presbyterians acquired it in 1791 through the efforts of the Rev. Dr. James Caldwell, who was known as the "fighting parson." The prettiest part of the ceremony came when President Finley called Richard

Cleveland, who sat between Esther Cleveland and his mother on the front row of the improvised platform. The young man stood up tall and straight as Mr. Finley placed the key in his hand. "You, Richard Cleveland, bearing the same name as your grandfather, who daily went in and out of the doors of this house, may now use this key, which undoubtedly is the same key he used, and unlock the door." The crowd applauded while young Cleveland obeyed. "The Grover Cleveland Memorial association wishes you, Miss Esther Cleveland, 'the White House child,'" said President Finley, turning to the eldest of the Cleveland children, "to carry these flowers into the house and into the same room in which your father was born. The roses signify the affection and devotion which the people of this country have for his memory." Among the addresses was one by Judge Aton B. Parker, who can for president. "Judge" Parker said President Cleveland stood like a lone and sturdy oak in a hurricane of political controversy, when the country narrowly missed abandoning gold currency.

TO ADVISE GOV. SULZER
John Mitchell to assist in passing
upon Labor Measures in New
York Legislature

ALBANY, March 21.—John Mitchell, vice president of the American Federation of Labor, has agreed to assist Gov. Sulzer in passing upon proposed labor reform legislation, including the bills drafted by the New York State Factory Investigating Commission and the Workmen's Compensation problem. At the request of the governor, Mr. Mitchell came to Albany yesterday for a conference with the executive.

Mr. Mitchell's visit gave rise to reports that the governor had offered to name him head of the proposed reorganized state labor department at a salary of \$300. Neither the governor nor Mr. Mitchell would say whether this matter was discussed.

The governor, however, declared that "New York state could get John Mitchell to take charge of its labor department. It would be the luckiest state in the Union."

"I have given Mr. Mitchell," he added, "copies of all labor bills pending before the legislature and he has agreed to assist me in considering them."

FOR CONTROL OF TUBERCULOSIS

Alderman Cummings Receives a Letter Announcing Hearing Will be Given Mar. 27

Commissioner Cummings is in receipt of a letter which was accompanied by an act for the better control of tuberculosis in Massachusetts. The letter says that the act is to be presented to the Massachusetts legislature and will be given a hearing before the committee on public health, Thursday, March 27, at 10:30 a. m., at the state house in Boston. This act is based on the recommendations of the joint board, consisting of the state board of health and the board of trustees of hospitals for consumptives, appointed by the legislature of last year to prevent a definite policy for the treatment of tuberculosis.

The letter also states that if the executive council can take immediate action and send word to the association in the form of a letter it will greatly assist them in presenting the act at the hearing.

The act is as follows: Be it enacted, etc., as follows:—

Section 1. Section 14 of chapter 674 of the Acts of the year 1907 is hereby amended by striking out the word "charity" and substituting therefor the word "health"—so as to read as follows: "The state board of health shall have general supervision of said

upon request of the state board of health refuses or neglects to establish and maintain such a hospital shall forfeit not more than \$100 for each refusal or neglect—provided, however, that if, in the opinion of the boards of health of two or more adjoining cities or towns or a city and an adjoining town or such hospital can conveniently be established and maintained in common, the authorities of the said cities or towns may subject to the approval of the state board of health, enter into such agreement as shall be deemed necessary for the establishment and maintenance of the same.

Section 3. The state board of health shall in all matters pertaining to tuberculosis supervise and whenever in its judgment advisable, direct the work of the local boards of health or the health officers of every city and town. Local boards of health shall make such reports to the state board of health concerning matters relating to the local tuberculosis situation at such times and in such manner as said state board may require.

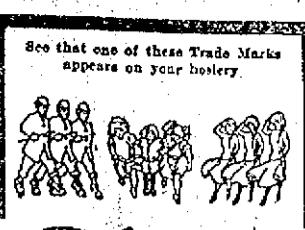

Section 4. The state board of health will be empowered to investigate tuberculosis as related to public and private schools, private dispensaries, private hospitals and other private organizations dealing with tuberculosis, and shall require an annual report in such form as it may require from such public and private schools, private associations, private dispensaries, private hospitals and other private organizations concerning their activities in relation to tuberculosis.

Section 5. State board of labor and industry shall promptly report to the state board of health all cases of tuberculosis, coming to its notice, and other necessary facts serving to identify each patient so afflicted, and shall make such further report as the state board of health may from time to time require.

Section 6. Section 45 of chapter 75 of the revised laws as amended by chapter 365 of the act of the year 1906 is hereby further amended by inserting after the word "with," in the sixth line, the words, "Tuberculosis or other," and by inserting after the word "to," in the ninth line, the words, "Any state institution for such cases or with the assent of the board of health having jurisdiction thereof to," and by inserting after the word "any" in the ninth line the word: "Other," and by striking out in the ninth line the words, "and insuring," and by inserting in the ninth line, after the word "town," in the ninth line, the words, "of the commonwealth," and by inserting in the tenth line, after the word, "smallpox," the word "tuberculosis," and by inserting after the word "health," in the 11th line, the words, "by the trustees or other governing boards of said institution or city or town hospital," and by adding at the end of the section the words: "In case the local board of health refuses to give its assent to such removal, appeal may be made to the state board of health whose decision shall be final."

Section 46: A magistrate authorized to issue warrants in criminal cases may issue a warrant directed to the sheriff of the county or his deputy, or any constable or police officer, requiring him to render under the direction of the trustees or other governing board of such state institution or city or town hospital, the services of the board of health of the city or town to which such removal is to be made shall first have been obtained. In case the local board of health refuses to give its assent to such removal, appeal may be made to the state board of health whose decision shall be final. No person removed by virtue of the provisions of this section shall be discharged from said state institution or city or town hospital without the written consent of some medical officer thereunto duly authorized.

Section 7. The state board of health shall have the power to recommend to city and town authorities, in suitable instances, the establishment of open air schools or fresh air rooms for children afflicted with tuberculosis or who are infected with tuberculosis or other contagious disease, or to impress and take up convenient houses, buildings, nurses, attendants, and other nec-

Christmas Savings Club

The interest in the Christmas savings club started last Monday at the Traders National bank continues unabated and while the enrollment of the first day was far ahead of any received in any other city, the numbers being enrolled daily foretell one of the largest clubs ever founded for the saving of money. Two classes under which the club is being run has proven equally popular with the members. Of course, some people and more particularly the young, rather than the old, will say that they will join later on. To those who are contemplating doing such a thing we advise them to go to the bank tomorrow morning and enroll. Procrastination is the thief of time and may also prove to be separation of those who have not already enrolled, and the thorough enjoyment of the Christmas holidays.

ALL RECORDS For Lowell Broken

It is my privilege, as it is my pleasure, to announce to the good people of Lowell that their good will toward low priced tailoring evinced itself last week in the biggest week's business that they have given me since opening my store in Lowell going on five years ago.

Under the conditions imposed upon my shops by the garment workers' union, tailors are allowed to work now only 8-hours a day, with overtime of only an hour or two daily allowed, more time will be required in filling orders during the busy season. This is a blessing in disguise, because it means better garments for customers when tailors can start the day fresh and rested, instead of working the old way, tired and weary from want of sleep and rest.

Figure to give me a week on orders, please. In emergency cases for funerals or special trips 24 to 30 hours is enough.

SPECIAL to every man whose suit I promised for Easter Saturday I will say now it will be ready. My office may not have time to notify you with card or phone, again I say your garment will be ready.

FOUND DEAD IN ROOM

Sudden Death of James Armstrong

James Armstrong, a man well advanced in years, was found dead in his room, at 4 Fox's yard, off Davidson street, shortly before 9 o'clock last evening by Joseph Caron, a friend of deceased.

Wednesday evening Caron and Armstrong went out together and the latter remarked to his friend that he thought he would die soon. Caron paid no attention to the statement and last night when he did not see him, he went to his room, and there found the lifeless body. Patrolman Thomas A. Maloney was notified and later Undertaker Charles H. Molloy brought the body to his morgue. Armstrong has no known relative in this city.

Enjoyable Affair in Grange Hall, Dracut, Last Evening Under the Auspices of the New Liners

The insalubrious atmosphere, with the accompanying inclement weather prevailing about this section last evening decreased but little the attendance of young folks at the dancing party given by the New Liners at the Grange hall, Dracut Centre. Within this well

appointed hall were present about 150 persons and by the time that the hour hand of the large clock, at the rear of the hall, had reached the figure "7" the floor was covered with pretty girls and their graceful partners, who glided over its polished surface with all the litheness which only youth can command. And yet even graceful dancers are sometimes lent additional grace by being favored with unusually smooth music. Such was the case at the grange last night, for the lively notes of the different catchy airs to which the young people stepped, came from one of the best orchestras in the city. This music, rendered by Gray's, hit the fancy of the gathering to such an extent that the only time it was allowed to pause was during that period when the young folks sat down to a nice little repast. Then the dancing was resumed and enjoyed until the usual seasonable hour for departure.

MUNICIPAL BATHS

The arrangements for public skating at Shedd park during the winter season have made it possible for hundreds of children to enjoy themselves to their heart's content without the danger of paying the annual toll of lives that was formerly claimed by the Merrimack and Concord rivers from those who skated on their treacherous surface. Now that one of the great problems of winter sport has been solved satisfactorily, it may not be too soon to turn our attention to making plans for the comfort and safety of our increasing juvenile population which during the summer months bathes in the rivers, canals and surrounding ponds without municipal supervision or any precautions for safety. In past years drowning accidents have been many and all the more regrettable when we consider that most of them were preventable if the city had made any provisions for public baths for children so as to prevent them from using the rivers and canals during the summer months.

This matter of municipal baths is one that is considered of the utmost importance throughout the country. In the last edition of the Municipal Journal, a magazine devoted to all forms of American civic improvement, there is a very interesting article on out-door baths as they are operated in ten of the principal cities of the United States, including Buffalo, Chicago, Cleveland, New York, and Philadelphia. Although the plans vary slightly in the different cities the fact is emphasized that in no case in the cost very great as public summer baths do not call for the erection of very substantial buildings, and some of the cities charge a small admission fee which serves to meet the necessary cost of maintenance. In Chicago there are two beaches on the lake front under the control of the city park commission, one beach on the lake front and eight or nine open air concrete pools under the supervision of the various park boards. They are open from early in June until October 1st. The beaches accommodate from 2,600 to 3,000, and the pools 200 per hour with ten hours per day. New York has eleven free bathing baths along the river front in the various boroughs, besides the public baths in Coney Island. In the river baths there is no charge for dressing rooms but suits or towels are not provided. In Philadelphia there are two open air swimming pools under the control of the board of recreation, open from June 20 to September 20. Dressing rooms are provided and suits and towels are free. Probably no city in the country is better equipped with public baths than Boston, whose system is well known to the majority of our people.

Although Shedd park, when completed according to the plans, will include swimming pools, the time when they will be available is rather remote and, because of location and growing population, it is doubtful if such baths would be sufficiently convenient. Many plans for public baths have been suggested, some of which are quite feasible and capable of being carried out without any great outlay. Some people have favored concrete pools constructed on the banks of the Merrimack, immediately above the city, some have proposed the cleaning and enlarging of the pool on the South common with such necessary changes in the water as would render it entirely sanitary, while others have declared themselves in favor of utilizing the canals. Although bathing in the latter has been forbidden, boys have used them for years, and in the warm summer days hundreds avail themselves of the opportunity regardless of the quality of the water or the swiftness of the current. Although the canals are dangerous and have been the scenes of many drownings, one who has seen the keen enjoyment of the scores who dive from freight cars or revel in the polluted waters would find it difficult to forbid their use, especially as the city has no substitute to offer. It is a reproach to our city that the subject of municipal baths has been so long neglected in a city of such importance, and steps should be taken without delay to provide them. Our waterways are so numerous it ought to be possible to utilize some portion of them for the purpose of a bath system without great cost and with great advantage to the health and safety of the young people of the city.

THE HAVERHILL SPIRIT

The Haverhill board of trade, supported by the people of that city, has succeeded in some public undertakings of a most important character, and the alacrity shown in their accomplishment is a very great example, if not a reproach, to the people of Lowell. In a spirit of energy and promptness they set out to increase and diversify the industries of the city and are meeting with remarkable success. Having erected several factory structures in the city proper, they have now launched a scheme for the construction of three eight-story factories in the Bradford district with the assurance that on their completion there will be no difficulty in securing tenants. To quote from a description of the proposed buildings:

Each building will have an approximate floor space of 130,000 square feet, including the basement. Each floor will have about 14,000 square feet, and the entire proposition, including the connecting sections in front, will add 27,000 square feet of first class factory space to the city.

EDITORIAL COMMENT

The Philippines
Johnstown Disaster—While there will be bitter opposition to Philippine independence and while even in the president's cabinet there will be a slight division of sentiment, it is probably a foregone conclusion that before the Wilson administration has passed out of the archipelago which we have been trying to conquer and dangerous conquest will be relinquished to a government of the Filipinos. This consummation is one devoutly to be wished; and when it shall come it will be a crowning glory for the democratic party.

Pure Food
North Adams Transcript: Dr. C. L. Attebery, successor to Dr. Harvey Wiley as chief chemist of the Bureau of Agriculture, announces that the law regarding the labeling of foods and drugs is to be strictly enforced. He believes such enforcement will be to the advantage of the public, but to the manufacturers, who will not later be willing to take their chances without any interference on the part of the government. Nevertheless, the law is there and it should be enforced.

Fake Photographs
Lynn News: President Wilson has sent a report to the secret attorney general in Washington that the means of stopping the sale of photographs showing the president in the act of shaking hands with any man who may have the photographer's price, or even showing Mr. Wilson with his arm over the shoulder of men whom he has just seen, has been effective. This has been carried on for many years. Mr. Taitt objected to it when it was discovered that some men were using such pictures in preying upon immigrants and others who were ignorant of the customs of the country. Mr. Wilson does well in doing the same.

Save Birds

Haverhill Gazette: The prospect of a not distant future when school children will know any of the commonest song birds only by observing their stuffed bodies in the museums, is imminent. The lack of adequate protection which birds are receiving, and more legislation is being made for the safety of the birds, but the necessity for immediate and vigorous action is generally appreciated. A number of naturalists have appealed to the public by calling attention to the value of birds in the various fields as scavengers, protecting the crops from injurious insects. These appeals should not go unanswered. They concern directly or indirectly the comfort and enjoyment of every inhabitant of this country. The destruction of crops, more than ever, in summer, and the added loss due to an absence of bird life from the parks and fields and meadows is enough to make any thoughtful person do his part in a crusade for the safety of these engaging feathered friends.

Dangerous Baiting

Brockton Times: The conviction of three North Carolina students on charges of manslaughter for the killing of a freshman in a baiting bout is a warning to all baiters. The proceedings of the North Carolina court and the finding of the jury might be of great value to all who are an assistant coach, or at least should be. It might have been better for the colleges if the three southern roisterers had been made to serve their four months sentence instead of being paroled in care of their teachers. The custom of baiting has dislodged from the small colleges and backwoods schools. At institutions where rules and lectures have proved useless, the law is the only corrective remedy, and strict management of the guilty ones in baiting and initiation fatalities seems the one hope of reform.

Europe War-Mad

Manchester Mirror: In Europe it is entirely different. The Balkan war has kindled into flame the war spirit among all the great powers of the continent. They seem to have gone stark mad on the question of preparedness for a general war. Germany has voted to spend \$250,000,000 to increase its army, which already numbers 700,000 men; France, with a population less than two-thirds of Germany's, has been increasing its number of troops until they equal those of the old-time army. Germany, spending 30,000,000 to its field force, and Italy is increasing its military strength. Russia has an army which already numbers 1,250,000 and its efficiency is being added to constantly at tremendous expense.

Change Towards Friedmann

New Bedford Times: A marked change has taken place in New York medical profession during the absence in Canada of Dr. Friedmann. Upon his return from the Dominion he finds no traces of mind where he experienced pronounced prejudice and a willingness to be convinced where unreasoning opposition exists. He has a new attitude of mind which is commendable. Whatever may be the outcome of the claims of the German physician, it would be indescribable to have denied him every opportunity of testing his treatment and establishing his merit or worthiness. Dr. Friedmann has quite as much at stake as any of those who have been inclined to place obstacles in his way. In a vast majority of cases his influence is so much greater than those who have regarded him doubtfully that it is not easy to believe their prejudice was inspired by suspicion that he was merely seeking self-exaltation.

Simplicity

Beverly Times: Mr. Wilson may be wearing his grey sack suit, but it won't be real Jeffersonian simplicity until he is caught in his brown overalls working the garden.

FOSS OUTLINES PRISON REFORMS

Submits Three Bills to the Legislature—Wants New Building for "Defective Delinquents"

BOSTON, Nov. 21.—In a special message sent to the legislature yesterday afternoon Gov. Foss discusses the need of providing more adequately for the housing of reformatory inmates and the inmates of state and county prisons.

With the message His Excellency sent in the drafts of bills for new buildings for "defective delinquents" for the appointment of an alienist to assist in the proper treatment of female defective delinquents and for a report from the prison commission on the best method of providing institutional accommodations for our present prison population."

The governor's message follows in part:

"The state prison was built many years ago and its buildings are for the most part unfit for use."

"The reformatory buildings at Concord are by no means ideal for their present use, but might possibly be utilized to better advantage as a prison."

"The buildings of the reformatory for women at Sherborn are declared by competent authorities to be wholly unfit for their purpose. They were built when there was little knowledge

about the class of women to be provided for or about their treatment."

"Some of the counties possess excellent jail buildings, not fully utilized and not adapted to short-term men, such as drunkards, who need out-of-door work, but which would be available under a better prison system for certain classes of long-term prisoners."

Just Classify Prisoners

"It is clear that we should institute a better system of utilizing the buildings we now possess; that we should also ascertain what new buildings are necessary, assuming we are to demand the best possible use of the present ones; and ascertain also to what extent prison labor may be utilized in further building operations."

"Merely to build a new state prison and add it to the present penal equipment of the commonwealth would be of little, if any, advantage. Our first requisite is a modern method of classifying prisoners, locating in one institution all who require the same general type of custodial care, at another those suited to instruction and remedial treatment, and so on."

"However, there is one very important

any class of delinquents for whom we now make no real provision whatever, but for whom we must provide immediately, for the protection of society. I refer to those unfortunate of both sexes who are now punished by our laws, but who, nevertheless, are admitted to be constitutionally lacking in some quality of self-control or mental balance. They cannot be adjudged insane, but through an unfavorable heredity they are 'defective.' If left at large in the community they constitute one of our gravest social dangers. But neither the prison nor the asylum is adapted to their incarceration, and they are rarely capable of reform.

Cottages at State Farm

"For these 'defective delinquents' we should make provision forthwith. Chapter 595 of the acts of 1911 requires the maintenance of 'departments for defective delinquents,' and it is now obvious that special cottage buildings are needed for this purpose."

"I therefore recommend that provision be made for erecting two such cottages for male patients at the state farm, where they can be administered under the medical direction of the hospital for the criminal insane and where these buildings can be utilized by that hospital when the time comes for establishing a separate institution for the defectives."

"To provide for female defectives I recommend the purchase of cheap land at Sherborn near, but not within the present reformatory grounds, and the erection of two or more cottages thereon."

"While the future of the present Sherborn reformatory, as such, is in doubt, it is not likely that the commonwealth will abandon the existing plant and establishment. Reconstruction on a more enlightened plan

Problems Should be Studied

"So much can be done at once. But as to the further modernizing of our general penal system, I feel strongly that the problem should be studied in all its bearings before the public funds are expended in this direction.

"Especially should we consider the

taking over by the state of all county jails, with complete disregard of the personal interests and protests of county officials, who depend largely for their political power and patronage on retaining the county system intact.

"Our first business should be to investigate carefully the possibility of establishing state care for all prisoners in the commonwealth who are serving long sentences; to devise a proper prison system on modern lines; and then to construct a prison to fit the system."

"Accordingly, I submit herewith the draft of three bills. The first of these provides for new buildings for 'defective delinquents,' the second calls for the appointment of an expert alienist to assist in the proper treatment of female defective delinquents; and the third calls upon the prison commission to report as to the best method of providing institutional accommodations for our present prison population and for the state care of all prisoners within the commonwealth who are convicted felons."

"Especially should we consider the

Investigation showed that Mrs. Danforth was dead upon the floor of the chamber of the house where the Danforths lived, her head battered and the room covered with blood. Danforth could not be found.

The boy said his father had struck his mother over the head with a club. It is claimed.

AUGUSTA, Me., March 21.—Ed. Hardy, a Spanish War veteran, and his wife, Cora, living on a small island in Tocus Pond, a short distance from the National Soldiers' Home, were both shot last night and it is believed fatally, according to advices received from there.

There is said to be little hope for the man. Dr. Lewis L. Man of Augusta is trying to save the woman. She has two wounds in the breast. He is about 35 and she 25.

Frank Vannah, a veteran of 64, was taken into custody at the Soldiers' Home on suspicion by Police Officer Corbett of Augusta and brought to this city. Vannah denies any connection with the affair.

Deputy Marshal Orren L. Cheate and Coroner Henry W. Plummer have gone to Togus to investigate.

Twelve-Year-Old Boy Chief Witness Against Frank Spear, Who Killed His Wife

NEW YORK, March 21.—With 12-year-old Frank Spear as the chief witness against his father in the latter's trial for the killing of his wife, state's attorney yesterday brought about the conviction of Alexander Spear, 41 years old, for murder in the first degree.

A supreme court jury, impressed by the son's testimony that his father took him on his knee and showed with the aid of a knife and an apple how he would slash his wife's throat, deliberated less than half an hour before returning a verdict of guilty. Spear was the only witness for the defense, testifying on the stand as he denied his son's story. Wednesday he will be sentenced to die in the electric chair.

—Dr. V. Pierce's
Favorite Prescription

Is that of a famous physician unusually experienced in the treating of women's peculiar ailments. For forty years it has been recommended to suffering women. Thousands of women can bear witness to its beneficial qualities. Perhaps it is all that is required to restore to you perfect health and strength. Now is the time to act, write Dr. V. Pierce's, Buffalo.

I AM NOW CURED

Mrs. Dorothy Rogers, of San Francisco, Calif., writes:

"I am now completely recovered from a nervous condition which I had for many years. I am now cured of the various troubles that a woman has to. These remedies cured me whenever I used them. Therefore I have to take no other. Thank you for your advice."

COMMITTEES BUSY

On Plans For Great Parade on March 20th—Chief Marshal to Meet His Aids

Communications continue to pour in to the secretary and other officers and sub-committees in charge of the parade on March 20th, which indicates that great enthusiasm has been aroused in the forthcoming demonstration.

Major John F. Hurley of Salem and Hon. Frank J. Donahue, secretary of state have sent positive assurances that they will be present in the pa-

rade, while Congressman Eugene E. Reed will also attend.

Chief Marshal McManmon today announced that he desires the presence of every man invited to ride on his staff, and that he will be at the Statehouse at noon in A. O. H. hall at 3 o'clock. In case of anyone not being able to attend, it is expected that he will send his name to the chief marshal at once.

Monday night in A. O. H. committee room, a meeting of the general committee will be held when the final details will be cleaned up and final orders issued.

FOR UNFORTUNATE WOMEN

Hopkins Estate Set Aside as Catholic Charitable Institution in Worcester—House Will be Remodeled

WORCESTER, March 21.—A new Catholic charitable institution for the benefit of unfortunate women, toward which the various Catholic women organizations have been working for several weeks, was formally established last night with the announcement that the property known as the Hopkins estate at Vernon and Ward streets has been set aside for the new home.

The property consists of a two and one-half story house and about 10,000 square feet of land. It was purchased several years ago by the late Mr. Griffin and made a part of the Church of the Ascension parish that was organized. The house is to be remodeled and will be opened for its work as soon as the necessary changes are made.

document. Like the other curtailments, is supposed to be due to the present financial situation of the Boston & Maine. The new of the road's pieces of construction work will go on as usual. These are the big car shops at Billerica, the classification yard at Mechanicville, N. Y., the construction of the line from Springfield to Bondsville and the extension of the Connecticut river line to Brattleboro, Vt. With them will continue the establishment of block signals and the elimination of the more important grade crossings, such as those in Lynn.

WOMAN FATALY BURNED

Sparks from Grate Set Fire to Clothing of Mrs. Jennie Laws, Aged 86, at Brattleboro

BRAINFREE, March 21.—Mrs. Jennie Laws, aged 86, living with her daughter, Mrs. Emma Howes, was fatally burned by sparks from an open fireplace yesterday afternoon and died last evening at 4:30.

About 8:30 Mrs. Howes heard her mother screaming for help. Mrs. Howes rushed to the room, seized Mrs. Laws from the floor and wrapped them around the blazing woman. She succeeded in extinguishing the blaze, but, not before Mrs. Laws was badly burned about the face and upper part of the body. Mrs. Howes' hands were badly burned.

Boilers and Bodies

This man knows what fuel develops the greatest energy and how to feed it to his boiler.

Do you know that much about the fuel for your body?

Without going deeply into the subject here is a fact which you may prove in any scientific work on the subject:

Oatmeal furnishes the body most of the important elements the body needs in almost exactly the proportions the body needs them.

If you would like to see how delicious oatmeal can be, try H-O Oatmeal.

It is the one and only oatmeal which is ready for assimilation by your body after only 20 minutes of cooking. That is due to the over-two-hours' cooking that we give it at the mill.

Why not H-O in the morning?

The Ring Co-Operative Piano Club

NOW FORMING A GREAT CO-OPERATIVE CLUB OF 100 MEMBERS IN THE
Greatest Piano Event Ever Held in Lowell

JOIN NOW—ACT AT ONCE

We have inaugurated the greatest event ever recorded in the history of piano selling in Lowell or elsewhere. A gigantic club of 100 members co-operating as one individual to purchase 100 new pianos—worth \$275 each—for \$162.50 each, or an actual saving of \$112.50. There are no extras of any kind, no interest, nothing to be added for stool to match and beautiful scarf, cartage, or the privilege of paying at the rate of \$1.00 per week, and club members enjoy privileges and advantages enumerated below, which are not a part of the usual buying and selling of pianos.

\$162.50

These 100 pianos will be sold \$1 cash, then 1 dollar a week. The dollar hardly covers the opening of the account—yet the dollar payment made when you join the club is credited to your account.

The piano will be delivered immediately. You do not have to wait until the club is filled. You get your piano when you join. The remainder is payable every week.

JUST 100 MEMBERS WILL BE ACCEPTED

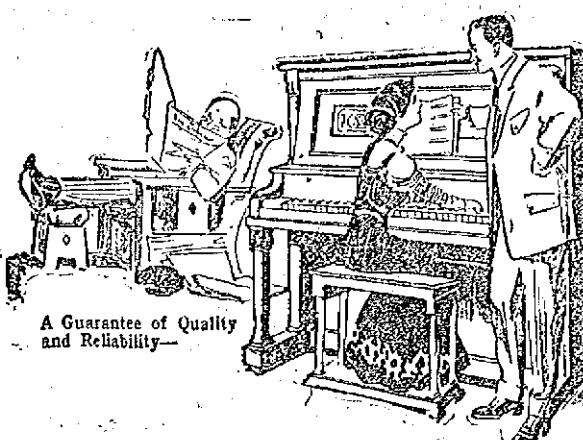

That's our entire present allotment of pianos—and the limit of membership will be speedily reached, so join now—ACT AT ONCE.

If after 30 days' trial the piano does not prove entirely satisfactory, we will give you your money back.

We give a 25 Years' Guarantee with every Club Piano sold, which insures you from taking any risk.

PIANOS

We carry in stock the largest and finest lot of pianos to be found in New England, including Emerson, Sterling, Ring, Huntington, Milton, Palmer and others.

A Guarantee of Quality and Reliability

These pianos are manufactured by an old established, reputable and reliable New York concern, which has been building artistic pianos since 1879. This particular piano which we are selling on club terms is the actual model that has been selling heretofore for \$275.

OUR PRICE ON CLUB TERMS IS ONLY

A Word Concerning the Ring Piano Club Now Forming

Most pianos are sold on partial payments—85 per cent. of them—and partial payments add a bit to the cost. But in the Ring Piano Club it is different—instead of paying more than the usual all-cash price, you pay less, and not a penny for interest or any sort of extras. And yet the payments extend over a period of three years—so easy that anybody can care for them.

Is \$112.50 in real money worth saving? The value of each of these Club Pianos is \$275.00. The Club Terms:

\$1 CASH \$1 A WEEK

NO INTEREST

NO EXTRAS

ACT NOW

Pay \$1, which makes you a member of the club and the piano is delivered to your home AT ONCE.

The Club Saving Is Just This

Club Piano Worth.....	\$275.00
Price to Club Members.....	\$162.50

Actual Saving to Club Members.....	\$112.50
------------------------------------	----------

The saving of \$112.50 by each member will pay for the musical education of one child for 2 years and 11 months at 75¢ a lesson.

PAY \$1 at joining—and get the piano into your home at once. Then pay \$1 a week as you agree on at the time of joining club. The club is positively limited to One Hundred Members. Be in time.

The Club Books are now open for membership. The pianos are on display in our salesrooms, where you can see and hear them, and select one if you wish, and the piano of your choice will be delivered on your initial payment of \$1, which only covers the opening of the account, and which dollar is deducted from the amount you are to pay.

IF YOU CANNOT COME TO STORE, SIMPLY SEND CHECK OR POST OFFICE ORDER FOR \$1.00 AND SAY, "I WANT TO JOIN THE CLUB."

2 CASES OF SMALLPOX A DOUBLE ELOPEMENT

Reported in Washington
Today

WASHINGTON, March 21.—With two cases of smallpox reported in the past few hours, physicians today renewed their activity with vaccine and needles. While the health department of the districts affected are not alarmed over the situation, nevertheless, the most careful precautions are being taken and the vaccination of government employees and others are proceeding. The department is inundated with inquiries as to the extent of the near epidemic. To all inquiries the authorities declare that the progress is not nearly so great or alarming as might seem.

NEW YORK, March 21.—After a consultation of specialists attending H. H. Kohlsaat, publisher of the Chicago Inter-Ocean, who recently suffered a slight hemorrhage of the brain, it was given out last night that after two or three weeks of absolute rest he will make a complete recovery. He continued to improve yesterday, it was stated.

One of Mr. Kohlsaat's daughters, Mrs. Shepard, arrived yesterday. Another daughter, Mrs. Potter Palmer, Jr. accompanied by her husband and children, is expected today.

ROWING MACHINES AT ALL THE COLLEGES ARE BEGINNING TO CREAK

IN PREPARATIONS FOR THE COMING SEASON—CANDIDATES ARE TRAINING

As is the case about this time every year, the candidates for the varsity and freshman crews at the different universities east and west are busily engaged in their annual indoor rowing stunts. Reports from Penn, Yale, Cornell, Harvard, Annapolis, Syracuse, Columbia and Wisconsin tell of record breaking lists of young Samsons who have responded to the calls of the coaches. Rowing is no child's play. From the successful candidate or substitute alike is demanded, not weeks, but months of hard training work.

KETCHEL-JOHNSON BOUT

True Story of the Fight
in Colma

On the afternoon of Oct. 16, 1909, Jack Johnson knocked out Stanley Ketchel in the twelfth round, the unequal match occurring in the old Colma (Calif.) arena.

In the eleventh round the big black heavyweight champion took a light blow on the left side of the neck, flopped to the canvas and got up rubbing his right cheek. The "knockdown" brought a great crowd to its feet, but Johnson only smiled and in the next round beat poor Ketchel to the door, where he lay in a heap.

The sensational finish was expected

to make the moving pictures of unlimited value, but on "the morning after" the San Francisco critics picked the affair to small bits of ridicule. Charges of "fake" were made, but never proved.

Ketchel was the world's middle-weight champion and a public idol at the time.

He was given the usual reception of wild shouts, shrieks and hand clapping when he climbed between the ropes, but immediately sank into his chair, where he broke into tears as his gloves were being adjusted.

Stanley Ketchel and Billy Britt, who was his manager, are both dead, and therefore a prominent sporting man of New York to whom Britt confided the truth of that bout is still living.

"Ketchel broke down because he had paraded the pine aisle to certain defeat, while Britt followed, threatening the champion with death if he didn't go through with the fight.

"Britt, the brainiest, most cunning and resourceful man that ever han-

dled a fighter, was alone responsible

for the situation. He himself explained it to me long afterward.

"Britt figured that by matching the middleweight champion against the wonderful black a heavy gate would result.

Also he believed that the moving pictures would bring a fortune, and he knew that a defeat for Ketchel would not affect his standing as the 158 pound title holder.

"It was a well laid plan, but the San Francisco newspaper men blew it up

higher than the hills of Colma.

"To get Ketchel to agree to such a match, as Britt told me, he assured the champion that Johnson had been "champed."

"In the dressing room five minutes before entering the ring Britt told Ketchel the truth, told him that Johnson was "tryin'" and that the battle would have the real California brand; that it must be decided on its merits.

"Ketchel weakened, and when argument failed, Britt furnished a six shooter. Even while Billy was fanning Ketchel between the rounds the grip

of the gun could be seen sticking out of his side pocket.

"Britt forced the execution of his plan. The fight was absolutely on the square, and it was the ease with which Johnson handily won that wrecked the value of the moving pictures.

"Billy had to tell the story to some one, so he picked me, and, over a dinner table he laughed at the many wild guesses shot at this sensational ring puzzle."

it in his plan a combined sanitary station
and shower bath. It will present the
plans at the next meeting.

Sup. Whittet intend a report of
his research into the popularity of ten-
nis in eleven cities of the east. New
haven, Conn., was the only city to re-
port that the game was not popular.

In Philadelphia and Springfield, Mass.,
it was reported as being very popular,
and the other cities which reported fa-
vorably were New York, Brooklyn, Bos-
ton.

has two courts under construction, but
did not venture an opinion as to the
popularity of the sport.

In Brooklyn the average attendance
a week is 1,500, each court, while in
Worcester 500 is the average. In Hart-
ford 500 is the average, while for one
season in Springfield 30,000 used the 10
courts built. Waterbury reports 200
persons a week using the courts.

New York Likes Tennis

New York has 265 tennis courts and
the number in other cities is: Brook-
lyn, 235; Philadelphia, 93; Boston, 102;

Worcester, 14; Hartford, 10; Springfield,
14; and Waterbury, Conn., 4.

The New York courts are placed on
regular lawns. In Brooklyn grass
courts are used altogether. Philadelphia
has no record of the different sorts
of courts. Boston pays \$300 each for
each court, and the cost in Worcester
varies from \$150 to \$300 per court.

Hartford paid \$150 for one of two
and Springfield paid \$150 for a
single court. Waterbury's courts cost
but \$100 each, and those of New Brit-
ain will cost, when completed, \$400 each.

All of the cities have caretakers ex-
cept Worcester, the pay varying from
\$1.75 to \$3 per day. The lowest paid
are in Philadelphia and the highest are
in Boston.

Mr. Whittet's Resignation

Mr. Whittet presented his formal res-
ignation to the chairman, who read it
as follows:

"To the Park Commissioners of the
City of Lowell, Mass.

"Gentlemen:
"I have sent to you my resignation
as Superintendent of parks to take ef-
fect, if convenient to you, on Saturday,
March 29, current, (1913.)

"I have been offered a position in
the west, and wish to enter upon the
duties of the new position soon after
the 29th of March.

"I thank you for the consideration I
have always received from the mem-
bers of the commission.

"Respectfully yours,

"Charles A. Whittet."

Mr. Greene said that if Mr. Whittet is
to leave by the 29th of the present
month it will be necessary to secure
somebody to take up his work.

Mr. Hall felt that unless there is
some real high grade work to be done,
there will be little reason for secur-
ing anybody to take the work. It will be
Mr. Whittet's the actual routine work
of the department begins.

Mr. Whittet said that the next meet-
ing will be held on March 28, at which time an inventory of the department
will be offered.

Mr. Whittet's Successor

Judge Pickman referring to the suc-
cessor to Mr. Whittet, said: "In se-
lecting a man who could direct men
to work, follow the plans of others,
office work, as well as possessing
a knowledge of shrubs and flowers.
"It is easy enough to get a man for
one particular work," said Judge Pick-
man, "but not one who can do all of the
things needed." The pace of the de-
partment will be set by the super-
intendent, he said. "I want a man of
the nose, and if we cannot get him here,
I am going to get him somewhere. I am
getting out of the board and perhaps
I should not speak in this way, but
this is frankly how I feel."

"We can't have a man who simply
wants the job, who wants the money.
He must measure up to a real stand-
ard. I am not going to be particular
in this matter. I would rather have the
whole world get the right man."

"There are lots of good gardeners in
Lowell; we won't have to go out of
the city to get a man," remarked Mr.
Carr.

"Well, a gardener isn't the only sort
of man required," said the chairman.
"It is well that the superintendent should
be one, but some other qualifications
are necessary."

Moody School Steps

The question of repairing the steps
at the Moody school came up. Mr.
Whittet said that Commissioner Cum-
mings had said Principal Greene of the
school could pay the bill for the work
—he wouldn't do it.

Mr. Whittet had placed the order for
the repairing work at the suggestion of
Mr. Greene.

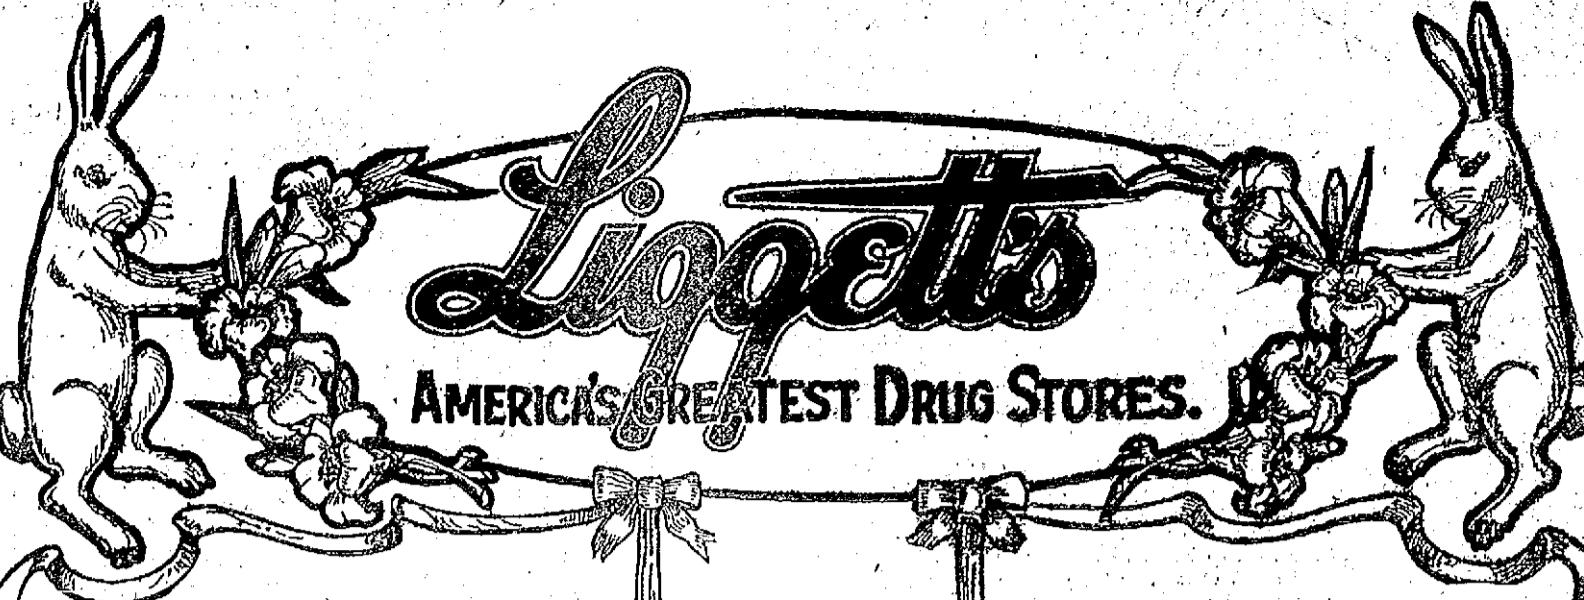

Mr. Hall felt that Principal Greene
should not be obliged to pay for it out
of his pocket. A fund was subscribed
by the people of the locality but not
enough money had been subscribed.

Judge Pickman didn't want to pass
upon the matter, although he said that
the very fact that Mr. Whittet gave

STATE SENATOR EDWARD FISHER

Objects to Use of Assessed Valuation as Evidence in Land Damage Cases

In the senate, yesterday, Senator Edward Fisher of Westford attacked the bill to permit the assessed valuation of real estate for a period of three years prior to bringing suit to be used as evidence in land damage cases. He said it was breaking down the fundamental rule of common law, as to evidence.

William of Norfolk defended the bill, which he said was asked by the corporation counsel of Boston. Hilton of Framingham opposed on the ground that if passed, it would tend to raise the tax on the people.

Allen of Melrose supported the bill and read a letter from Atty. Gen. Swift endorsing it. Mack of North Adams opposed it. Montague of Boston favored it as solving a most important abuse.

Quigley of Holyoke favored the bill, which was ordered to a third reading by a vote of 12 to 12. The vote:

In favor—Allen, Bagley, Bazeley, Bellamy, Brennan, Chase, Clark, Draper, Fay, Fitzgerald, Garst, Hickey, Hickey, Hogan, Joyce, McGonagle, Lane, Montague, Norwood, Quigley, Ross, Timothy, Williams—23.

Opposed—Blanchard, Coolidge, Fisher, Gordon, Hilton, Hobbs, Johnson, McCarthy, Stearns, Ward, Wheeler—12.

Paired—For, Wells; against, Eldridge.

The Single Ballot

The Massachusetts house had several interesting discussions yesterday afternoon and did not adjourn till nearly 10 o'clock. The principal contest came up in the afternoon. The bill, which the measure provides that at primaries thereafter there shall be a single ballot in which the various political parties shall group their candidates.

The voter is given this ballot, but, in marking, must confine himself to one group of candidates. The committee on election laws reported against this bill yesterday by a vote of 10 to 56. The house substituted the bill. Party lines

were not strictly observed on the vote. Some democrats, including Lomasney of Boston voted against the bill. More republicans voted for it.

After a rather spirited debate the house passed to engrossment the bill, which directs assessors of the city of Boston to use the civil service.

The house took up the bill relative

to tolls in the East Boston Tunnel. Sullivan of East Boston moved to sub-

stitute a new bill authorizing the city of Boston to appropriate \$125,000 an-

nually to be added to the rental from

the tunnel, the whole sum to be ap-

plied to the making full requirements

of the various conventions, he said. It

had been decided that this is the only

manner in which the people of East

Boston can be relieved of the toll bur-

den placed upon them.

The house accepted the substitute

bill and ordered it to a third reading.

Ice-Weighing Bill Voted Down

Williams of Needham opposed the bill

to require leemen to weigh the ice they

sell as unjust legislation.

Bagley of East Boston said this bill

is no reflection on the ice dealer. There

have been complaints of heavy short-

age in weight where ice is delivered in

large quantities. The leeman does not

now weigh his ice and he should be

compelled to do so. Senator Blanchard

said that if this bill is passed it will

increase the price of ice 25 per cent.

Senator Allen opposed the bill and

read from the law to show that the

leeman was compelled to weigh the

ice of the consumer. The bill was rejected

by a vote of 14 to 12. The vote:

In favor—Bagley, Bazeley, Bellamy,

MGR. O'CALLAGHAN DEAD

Beloved Pastor Passed
Away Last Night

DOCTORS MADE EVERY EFFORT TO
PROLONG LIFE

Came to America at Early Age—Died
at Salem—Was 72 Years Old—
Funeral May be Held Monday

BOSTON, March 21.—The chimes of St. Augustine's, pealing mournfully at 11 o'clock last night, announced to all South Boston that Mr. Denis O'Callaghan, one of the best known and most

beloved Catholic clergymen in all New England had died.

The old man had been awaiting for many hours. It came peacefully, at 10:57 1/2 o'clock as the aged prelate was surrounded by doctors, relatives, friends and relatives at his home in the parish houses, 14 and 18th streets, South Boston. When the final moment came Mr. O'Callaghan had been unconscious for several hours.

A few moments after he died, the people of his parish and all in South Boston were surprised at the news by the tolling of the bells in St. Augustine's. In commemoration of his 72nd birthday, which was last Tuesday, the Boston clergymen tolled 72 chimes by James Neary, the sexton of the church.

Yesterday at noon Mr. O'Callaghan seemed to have rallied against the illness which affected him since last Saturday night and which had him unconscious as he was assisting the Sunday service of his church. His condition yesterday was so much improved that at 12 o'clock we set up and tried to walk to an adjoining room. This effort, however, sapped nearly all his remaining strength and caused him to collapse back. He lapsed again into unconsciousness.

Throughout the afternoon he was kept alive only by the efforts of Drs. P. J. Timmins and Robert N. Dwyer, who were constantly with him.

Those who were at his bedside when he died were Mr. and Mrs. O'Callaghan, his nephew, and son, Mr. Denis O'Callaghan, the two doctors in attendance, Dr. Robert N. Dwyer and Dr. P. J. Timmins, the sexton of his church, Dr. M. C. Gilligan, Dr. Henry Lyons and Dr. Edward Costello, and his most intimate friend, the Rev. P. J. Lyons, of the New Hospital and chaplain of the Nightshirts' church.

The time for Mr. O'Callaghan's funeral has not yet been decided upon. Today at 11 o'clock a conference was held with Cardinal O'Connell to make all the arrangements for the funeral. It may be held Monday.

Born in Ireland, 72 years ago, Denis O'Callaghan, estimated when very young with his mother to Salem, where he attended school. Later he entered St. Charles College near Barking, and went from there to St. Mary's Seminary in the same state, where he remained for the theological studies and was ordained a priest by the late Archdeacon Murphy of Baltimore on June 22, 1863.

Coming immediately to Boston, Fr. O'Callaghan served for two years as assistant priest of St. Peter and Paul's church, South Boston, at the end of which time the cathedral population became so large that he was assigned to the cathedral of another parish in the diocese. To Fr. O'Callaghan was entrusted the task of organizing and caring for the new parish. He entered upon this work in August, 1865.

And his success in the parish grew and proved to such an extent that, even before long, the magnificent church of St. Augustine was erected on the site at a cost of more than a quarter of a million dollars.

In 1888 Fr. O'Callaghan received the degree of doctor of divinity from

Covering 22 Mornings

BOSTON, March 21.—A report on the business done by the three recently inaugurated midnight trains from Boston for the 22 mornings they were run during the month of February was made yesterday. Whether this busness, if it does not improve, is sufficient for the railroad commission to order their continuance beyond the test period of three months is a question. The total carried out of Boston was 1,812 passengers.

KILLED BY ELEVATOR

William Dequattro, Aged 14, Was
Playing in General Fire Extinguisher
Co. Building, Providence

PROVIDENCE, March 21.—William
Dequattro, aged 14, son of Alexander
Dequattro of 91 Dean street, was

caught in an elevator which he was trying to run in the foundry department of the General Fire Extinguisher company yesterday afternoon and was instantly killed. Dequattro and another lad of about his own age carried themselves to the foundry, told them to get out before they were hurt, and running down a flight of stairs, they jumped on the elevator and started up.

It is believed that Dequattro tried to get off as his hand was caught between the lift and the safety gate. Their cries attracted the attention of Marti on the floor above, and seeing the lad's plight, he jumped on the elevator and stopped it. As he did so the boy's body rolled into the well. Dequattro's neck was broken.

TALKING PICTURES HERE

Newspapermen Enjoyed Performance at Keith's

The pictures that talk are in town and it was the pleasure of a party of newspaper men to view them at Keith's theatre through the courtesy of Manager Will Stevens.

There are and have been alleged talking pictures which are and have been quite interesting, but once one hears and sees the Edison talking pic-

tures which will be offered to the public of Lowell for the first time next week, all others fade into insignificance. Like crude imitations before the real article.

The synchronism between the voice and the picture has been the stumbling block which Edison had to overcome to make his latest invention a success. That he succeeded beyond the semblance of a doubt was most charmingly exemplified at the exhibition given this morning.

The first picture showed an elaborately furnished drawing room into which enters a gentleman in evening clothes who immediately starts an eloquent explanation of the nature of the Edison talking picture. Sure enough the words came directly to the mouth of the speaker's mouth and after he had been speaking a moment the deception was complete and the novelist imagined that the picture had

come to life.

Charlie Keyes, the auctioneer, and you know him, said it was a "home wrecker" and knocked it down to the first bidder. The fellow bid 15 cents right off the reel and he could have had the darn thing for a Buffalo nickel had he but known the way that Charlie felt about it.

You know the American Express company holds these sales every year. That's why they are called annual sales. Do you get me? Well, when the express company has anything to sell in Lowell they say, on to the other, "Let Charlie Keyes do it," and there's a reason. Do you follow me?

Charlie Keyes is one of the best auctioneers in North America, and, just as true as there is Christmas money in the

PICK-AXES AND BABY CARRIAGES

Included in the American Express Co.'s Package Sale—Lots of Fun at Auction

This isn't for publication but it's an actual fact that a "home wrecker" sold for 15 cents at the American Express company's parcel sale in the old Boston & Maine depot at Tower's corner, this morning.

Traders bank, Charlie doesn't pay a cent for any of the good things that might be said about him in this class. Maybe the editor will can this whole business, and believe me if he does he will be doing you an awful injustice.

Charlie Keyes is a funny little man and that's why he makes such a hit as an auctioneer. He can get more money for nothing than any man east of the Rocky mountains and when the men familiar with his greatness as an auctioneer and money getter saw him knock down a great big oil stove to the first bidder they felt like rushing from the building. They thought sure that something was going to happen.

The Home Wrecker

The oil stove was the thing that Charlie called "home wrecker" and the oil stove didn't talk back, either. Here's one of those things that blows a man out of house and home quicker.

Continued to last page

come to life and was addressing him personally. He then stated that he produced other familiar sounds to exemplify the perfect synchronism attained in the talk. He then dropped a plate on the floor and then introduced a gentleman who proceeded to play a classic on the piano. Two barking dogs appeared in the picture, both barking silent at the raise of their master's finger. Then a female artiste rendered "The Swanee River" on a violin. The artiste and the Interim Manager Stevens had a few words of an explanatory nature. Among other things Manager Stevens called attention to the fact that there was a possibility of the picture starting before the talking machine, but he stated that the operator could instantly note the lack of harmony and make the adjustments perfect in a twinkling. As an illustration Manager Stevens remarks, the illustrated picture started a second before the talking machine, but before the interlocutor had said more than three words everything was in harmony, the words corresponding with the movements of his lips. This picture included a regular minstrel act with orchestra and men, jokes, solos and choruses. Among the numbers was "Silver Threads," a tenor solo sung by a young man with a sweet lyrical tenor voice. In this number the sounds of the voice were perfectly reproduced, even the slightest inflection, and in such a manner with the motion of the singer's mouth that one found it difficult to believe that he was not listening to the singer in the flesh. The story of the mechanism of this wonderful invention has been previously told in these columns. The results are all that have been claimed for them.

FIRST DAY OF SPRING

Today is the Warmest of the Year

BOSTON, March 21.—Bright skies and soft, balmy airs from the southland heralded the first day of spring in New England. The day proved the warmest of the year so far and also one of the warmest March days in the history of the local weather bureau. Storm conditions are said to be heading this way.

DISTINGUISHED VISITORS

Are Expected in Lowell Next Week to Review the Parade—Will be Entertained by Municipal Council

Several mayors from other cities as well as the lieutenant-governor and his staff are expected in this city to review the parade on March 29, and accordingly the city council has authorized the mayor to make proper provision for the reception of the distinguished visitors.

It is expected that a number of the chief executives of other cities will arrive in Lowell on the Saturday previous, and they will be entertained by the mayor and members of the council who will see that they are well taken care of while in Lowell.

Storm Leaves Death Trail

COLUMBUS, O., March 21.—A wind storm of great severity swept over central Ohio leaving death and destruction in a wide path. The result in this city up to one o'clock, included one death, probably a score of persons injured, at least three seriously, numerous small fires and thousands of dollars damage to property. The gale reached a velocity of 80 miles an hour and in many instances pedestrians were swept from their feet.

Richard Plummer, a contractor, was killed and three other men working with him were seriously injured when a brick building collapsed and buried them into the ruins. Reports from towns and villages in this section of the state indicate that there has been large property damage in rural sections, houses being unroofed and farm buildings wrecked.

Society to Meet Mrs. Wilson

WASHINGTON, March 21.—Arrangements were completed today for a breakfast on April 5 at which the local society women formally will become acquainted with Mrs. Woodrow Wilson and Mrs. Thomas Marshall, wives of the president and vice president. The breakfast will be given by a committee of Washington women and will be semi-formal. The guests will include Mrs. Champ Clark, wife of the speaker of the house and the women of the cabinet circle.

Lightweight Boxer Dead

PITTSBURGH, March 21.—Tommy Leavelle, lightweight boxer, died at Mercy hospital here this morning as the result of a blow he received at a boxing bout before the Tariff club last night.

COULD NOT

STRAIGHTEN UP

A Peculiar Condition Removed

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmer's advertisement and made up my mind I would try Swamp-Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmer's Swamp-Root removed all the difficulty and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmer's Swamp-Root to anyone suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

TOWN OF BILLERICA

Annual Report is Now
Being Distributed

The annual report of the town of Billerica was distributed among the voters of the town today. The copy contains a report of each department in the town from March 1, 1912 to March 1, 1913. The auditors' report shows an unexpected balance of \$6,016.16 for the year ending March 1, 1913, against a balance of \$5,941.57 unexpired last year, while the town treasurer has a balance of \$2521.19, the balance of last year being \$1522.45.

Fifty births have been recorded during the past year while the number of deaths was 62.

In the report of the board of selectmen it was recommended to secure better street lighting. Among other improvements recommended by the board was to repair Union hall, so its condition would compare with the other public buildings of the town, and the

disposal of the Chessman property that is situated in the town of Hollis and owned by the town of Billerica.

Arthur B. Webber, superintendent of schools objects to the old form of marking pupils and has proposed the following plan:

Record marks in scholarship in the school record book once a month, instead of once a week. These marks should be considered as entirely private. They should not be shown only in special instances.

Send home once a quarter reports cards showing—Statistics of attendance—sessions absent, times tardy, times dismissed. List of studies pursued by the teacher in regard to the work of the pupil for the month.

In addition to the regular report sent home once a month, send a special report home the moment a pupil falls below a proper standard in any subject.

In this way the parents will be informed immediately if things are not going right in school and will not be compelled to wait until the end of the quarter for such important information.

Keep much of the written work in arithmetic, spelling, history, geography, composition, etc., in neat portfolios, and send home frequently for inspection.

tion by the parents. By having a continuous series of papers in each subject, the parents can tell at a glance the character of the work done, and can note the improvements made from month to month. In case, however, that a pupil is making no improvement, but is growing more careless in his work, this fact can be plainly seen.

Mr. Webber also suggested that more industrial education be allowed the pupils and especially those of the eighth and ninth grades. Additional rooms are needed in the public schools, especially in the Pollard school at the Centre.

The report of the police department shows that 47 arrests have been made while the number recorded last year was 39.

Bank to Open

GREENFIELD, Mar. 21.—The Greenfield Savings Bank, which was closed by the savings bank commissioner in February, will be opened April 1.

Commissioner Thorndike today sent notices to the several thousand depositors that the conduct of the institution would be restored to the trustees. The assets of the bank according to the commissioner are \$3,055,407 and the deposits \$2,823,975. The depositor

will receive the full amount of their principle on deposit, together with a three per cent. dividend and interest since last November.

EASTER CLOTHES

The regular meeting of Lowell council Royal Arcanum was held last night in Odd Fellows hall with good attendance and during the evening considerable important business was transacted by the members. One candidate was initiated into the order and there were arrangements made for a large class initiation and socials which will be held in the rear future. Preparations are complete for the joint initiation on next Thursday evening. The council voted to send a letter of thanks to James J. Gearin for the deliciously interesting lecture which he delivered in Mathew Hall on last Wednesday.

holding rehearsals for this event. At the close of last night's meeting, refreshments were served and an evening with a celebration of the particulars of the entertainment enjoyed. Whilst was played while the members were seated. Several hours were spent on the entertainment and the evening was a most pleasant one for all present.

Council, R. A.

Another council of the Royal Arcanum in this city, namely the Industry council, held a regular session last evening and in this division of the order, also growth is manifest. Important features were discussed during the meeting last night, and applications were received and acted upon. Several of the committee reported on their activities and these reports in every case showed progress. In the whilst tournaments it was reported, Highland council is in the lead. The Royal Arcanum is the only committee to have been appointed for the borders. The entertainment committee is engaged in arranging a series of musical entertainments and socials which will be held in the rear future. Preparations are complete for the joint initiation on next Thursday evening. The council voted to send a letter of thanks to James J. Gearin for the deliciously interesting lecture which he delivered in Mathew Hall on last Wednesday.

CARMEN MUST CHOOSE
Give Up Union or Mutual Aid Association, the Rhode Island Company Action Declares

PROVIDENCE, March 21.—The Rhode Island company, which operates the trolley lines here for the N. Y. N. H. R. R., in a notice posted in the bars throughout the city yesterday, has placed two propositions before the employees: To give up forming a union or to lose the Mutual Aid association, of which each one is now a member and which carries a pension provision.

For months conductors and motormen have been organizing and their demands that they ride free when on duty were recently granted. Since then there has been talk of a strike for higher wages.

PATRICK F. BYRNE DEAD

Quincy Man Had Sight Miraculously Restored at Shrine at Lourdes, France, 30 Years Ago

QUINCY, March 21.—Patrick F. Byrne, aged 69, of 147 Liberty street, South Quincy, who had lost his eyesight miraculously restored at the shrine dedicated to the Blessed Virgin in Lourdes, France, some 30 years ago, died suddenly at his home of heart disease. Mr. Byrne was an expert in the handling of dynamite and blasting powder.

SICK CHILDREN

Left in Burning House Until Health Authorities Released Them from Quarantine

MAIDEN, March 21.—While their three small children, who had been quarantined with measles, cried to be taken out of the burning house, Jas. Campbell and his wife refused to heed their pleadings until they had secured permission from the board of health to take them from their home, 27 Mills street, Malden.

While the upper part of the house was a mass of flames, the children, one a baby less than 2 years, another, 3 years, and the third, 8 years, called: "Mamma, please take us out. We'll get burned."

A telephone message was at last sent to Dr. Samuel Miller of the Malden board of health, who told the parents to take their children to a place of safety—to a neighbor's house. If any neighbors would permit them.

Then the little ones were taken from the burning home.

In a few minutes Dr. Miller arrived in an automobile and took the children to the Malden Contagious hospital. They were suffering badly from fright, but had sustained no injuries by their thrilling experience.

Roxbury Storage Salesrooms

The Fight Grows Harder and More Bitter
A Great Chance for the Public to Buy at Cut Prices

A piano sale here is always a sacrifice, always a bargain sale, always a markdown sale. The very nature of the business here is one of sacrifice. The business here is not conducted like the business of a regular piano store, where the business is profit on the cost of the piano. We don't let any piano land around our doors; a sacrifice tag is placed on which on the face of it reads competition defied and it is sold to the first wise man or woman for the price marked on the tag. Price doesn't mean anything at these sales. We cut and double cut prices on all makes alike; we ask no favors, we want none, and we give none. In sizes like these someone's loss is your gain, the profit is all yours. The finest instruments of the world's best makers are in the sacrifice list.

HYOMEI Medicates the Air. You Breathe and Gives Quick Relief in Catarhal Troubles

He was in time and use HYOMEI at the first warning of catarhal troubles. Do not let the disease extend along the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes, and then downward until the lungs are reached and you are in danger of consumption.

HYOMEI will relieve all curable forms and stages of catarhal. It is uniformly successful in curing this common yet dangerous disease that Carter & Sherburne take all the risk of a trial treatment and agree absolutely to refund the money if anyone uses HYOMEI and does not get relief.

There is no other treatment for catarhal that is like HYOMEI or just as good. None can take its place, none gives such quick and sure relief and at so little cost. Its medication is breathed through a pocket inhaler that comes with every outfit, thus reaching the most remote cells of the air passages, killing the catarhal germs and soothing and healing the irritated mucous membrane.

Begin the use of HYOMEI today and you will soon find that the offensive breath, the droppings into the throat, the discharge from the nose, sniffing and all other symptoms of catarhal are overcome and cured. The complete outfit costs but \$1.00. Extra bottles of liquid, if later needed, 50 cents at Carter & Sherburne's and druggists everywhere.

LAWRENCE SUICIDE

Man Drank Poison After Showing Signs of Mental Derangement, Last Night

LAWRENCE, March 21.—The Methuen police announced today that Hubert Ashley, 45, of 147 Center street, who died last night, committed suicide by drinking poison. He had been acting strangely of late, his relatives say.

One pill after each meal will quickly build up the health run down by worry, overwork or any unusual drain on the system. One box of Dr. Williams' Pink Pills contains two weeks' treatment.

Mrs. F. H. Morse, of Whitehall, Mich., says: "For ten years I never knew a well day. The breakdown was gradual at first, growing more alarming and complicated as the years went by. It would be difficult to tell all the various ailments I had. I was sick all over. I suffered intensely from stomach and intestinal trouble. My entire nervous system was completely prostrated. Natural sleep I did not know for years, existing only on the sleep procured by drugs. I was thin and exhausted and the doctors pronounced me incurable. There was a full feeling in my stomach and food distressed me. I seemed to get no benefit from the food that I ate. I had a weak heart which fluttered badly. I also had headaches. I was so weak that I could hardly help myself. One day I decided to give Dr. Williams' Pink Pills a trial. I took the pills faithfully three times a day, also being careful to eat only good, nourishing food, exercise in the open air and to go to bed regularly. At the end of three months I had gained surprisingly and at the end of six months I was well. I could sleep naturally and my stomach and head felt in a normal condition again."

The booklet, "Building Up the Blood," is free upon request.

Dr. Williams' Pink Pills are sold at all druggists for 50 cents per box; six boxes, \$2.50, or direct by mail, postpaid, by the

GOOD FRIDAY SERVICES

Held in All the Catholic Churches Today

THE SERVICES OF A MOURNFUL CHARACTER

Meditation on the Crucifixion of the Saviour and Veneration of the Cross

Today, Good Friday, in the Roman Catholic churches is the most profoundly observed of all Holy Week; for the services are held to commemorate the death of Christ, the Saviour of mankind, upon the cross. It is a day of mourning, therefore, and all the services are directed to that purpose.

The Good Friday services were held in all the Roman Catholic churches throughout the city at different hours, according to the custom of each particular house of worship, and in every instance large congregations were present to assist. This solemn day of mourning was observed with the im-

pressive ceremonies, in which all the clergy of the churches took part.

So it is, that although no actual mass of consecration is celebrated, nevertheless, there is held what is known as the mass of the preanointing. At the mass on Holy Thursday (yesterday), the Hosts were consecrated and one of these was for the service today.

Since the entire observances of Holy Week are taken up with the commemoration of the sufferings of Christ, the reading of the passion of our Lord took place again at the services of today.

The services today opened with the reading of a lesson from the Prophet Osee, chapter VI, which opens with the following passage: "In their affliction they will rise early to me and say: 'Come, let us return to the Lord; for He hath stricken us and will heal us; He will strike and He will cure us.' On the third day He will raise us up and we shall live in His sight."

These words precede the entire service as an expression of consolation, and are read by the priest at the altar after he has prostrated himself before the altar.

Then follows reading from the other prophets and finally the mass of the preanointing is celebrated. The pastor read today was that taken from the gospel of St. John.

The services at the various Catholic churches took place at different hours this morning; at some the mass of the preanointing began at 8 o'clock, together with the other Good Friday ser-

vices, while at others the ceremonies were held at 5.30 and 9 o'clock. This afternoon at 3 o'clock the stations of the cross will be observed at the various churches.

This evening there will be the ten-hour service, starting at half past seven o'clock and at this service, a special sermon on the crucifixion or some kindred subject will be preached.

Last night, in a majority of the churches the ten-hour services were held and were attended by large congregations. Very many followed the custom of going about and visiting the repositories of the various churches and nearly all of the houses of worship were filled until a late hour last evening.

This afternoon and evening a feature of the services will be the veneration of the cross, the emblem of man's redemption.

Tomorrow morning the Catholic churches about the city will hold the regular Easter Saturday ceremonies, consisting of the blessing of the holy water and celebration of the mass. The choir will be in attendance and accompaniment on the organ will be required. There will be no services in the evening.

HER BODY UNCLAINED

Three Insurance Policies Found in the Trunk of Mary Mark at Manchester, N. H.

MANCHESTER, N. H., March 21—

The body of Mary Mark remains unclaimed at a local undertaking establishment yesterday, though efforts are being made to find some relatives.

It has been several days now since she was found at 113 Elm street, and it will be necessary that somebody come forward in the course of the next 24 hours or the body will be turned over to the city or county authorities.

The matter was today placed in the hands of Overseer of the Poor, Andrew. His attention was directed to the room in which the woman was found Monday evening, but he could discover nothing to establish the rumor that she died leaving considerable property. It was, however, learned that she owned a trunk, but that it was held, pending the payment of a \$65 room and board bill.

The person holding the trunk was interviewed and with his consent the trunk was opened. In it was found a bank book with a deposit of \$1 and three insurance policies, two of which were for \$100 and \$200, respectively, and one for \$1000.

The mayor later wrote a letter to the superintendent recommending the adoption of the sample supplied by Putnam & Sons of this city, for the reason that the goods are of better quality and the prices very satisfactory and also for the fact that the said firm is a local concern.

The caps are to cost \$1.70 apiece and are to be purchased by the patrolmen. The department will supply the officers with new shields and badges, and the new caps it is expected will be ready for use by April 15.

NEW CAPS FOR POLICE

Mayor O'Donnell Has Adopted New Style Which Will be Ready by April 15

Superintendent Redmond Welch of the police department has received various samples from several hats supply houses for caps for the patrolmen, and the same have been submitted to Mayor O'Donnell.

New French Cabinet

PARIS, March 21.—Jean Barthou, minister of justice in the retiring French cabinet has agreed to form a new ministry. He called on President Poincaré at the palace of the Elysee, this morning and informed him that as the result of inquiries he was sure of an ample majority to support him in the chamber of deputies and probably also in the senate, at least until the question of proportional representation comes up again for discussion.

The Giants are going in for social affairs as well as baseball at their training camp at Martin, Texas. They would up their stay by giving a full dress dance at one of the hotel ball-rooms and from all accounts it was a real party. Myers and Thorpe were right there strong.

Ralph Rose, the giant weight-man from California, celebrated his birthday last Monday by putting up the 16th, that night, sixches beyond the present world's record. At the mark was not allowed because the regular A. A. U. officials were not present at the meeting. Rose was 22 years old last St. Patrick's day.

Sam Crawford has at last been taken into the Tiger fold, or rather has moved there. The Detroit outfit has been shelled for some time past and the record that he received last year, 15000, this seems to have ended the much talked of Tiger holdout club. Any club with Cobb and Crawford in the lineup is liable to give the sporting writers some choice topics to discuss.

The Y. M. C. A. swimmers are putting in some hard work these days perfecting themselves in the difficult feat of taking fast corners. The absence of Coolum, who left town for Florida the other day, will weaken the team in the younger boys there are several heavy men who Physical Director Ulke thinks will make ideal divers.

Morris Harris, the young attorney, has been offered a contract with the Peoria, Ohio, club but has turned it down.

He has decided not to play the game as a professional. Harris has played an infield position with many of the local teams during the past few years and is well known in semi-pro circles.

Manager Jesse Burkett is after another youngster, "Bootsy" Chapman of Quincy is the latest young ball player that has taken the eye of the Worcester manager. Jesse will have some difficulty in landing him, too, from the account. Chapman is captain of the fast Quincy baseball team, an aggregation which is a "simon pure." If he goes into professional baseball it will necessitate cancelling his amateur standing which he is unwilling to do. Chapman is a catcher and plays that position on the Makala team of the Quincy City league.

There is a rumor in the Athletist's training camp that Strunk has lost the use of his throwing arm. He has done but little work with it since the southern trip started and critics say that instead of holding back, as at first supposed, the crack outfielder has thrown away his arm. Dr. Chadwick, the club trainer, refuses to admit it, however. It is the general opinion that this is in fact the reason Connie Mack will have a hard job filling this player's shoes this season.

The Red Sox have two men on the temporary sick list. Gardner has a lame arm and Redient has a bad foot.

Chicago Man Wins Easily in New York—Joe White is Beaten by Dave Kurtz

NEW YORK, March 21.—Jack Britton of Chicago gave Young Brown, the No. 1 featherweight, a boxing lesson in a 10-round bout at the Atlantic Garden A. C. last night. Britton earned the honors of each chapter. Neither scored a knockdown.

Joe White of Boston received his first setback. He was forced to take the second honors to Dave Kurtz, the Newark welterweight, in a 10-round bout at the Garden. The Bostonian A. C. last night. Britton earned the honors of each chapter. Neither scored a knockdown.

BOWLING NEWS

The Weave Room defeated the Fishing Room in their bowling match last night. The winners took all three strings and outclassed their opponents.

In the Manchester Unity bowling league Team Four won their game from Team Three and Team Seven won their game from the Team Eight by a garrison finish. Both games were very close.

Team Five swamped Team Seven in the Y. M. C. A. roll-off last night at the association alleys. The final score stood 1255 to 1112.

In the Baraca league last evening one of the closest games that has been rolled this winter was played. The First Baptist team won their match from the Calvary team by a single pin. The First Trinitarian Congregational team was the winner in their game with St. Paul's Methodists. The contest was close throughout and was not decided until the last box had been rolled.

The Mt. Groves won their game from the Tremont and Suffolk rollers. Both teams are members of the Moody street bowling league. The final score stood 1255 to 1225.

In the Crescent Two-Man League Team Six won from Team Two and Team Ten got the decision over Team One. Both games furnished exciting moments for the spectators.

The Ajax rollers proved too strong for their opponents in the Heinz Electric U. S. Cartridge bowling league last night, defeating the Magdalos by 51 pins. Donohue with a total for 30 boxes of an even 300, was high man.

THE MOODY BRIDGE MINOR LEAGUE

The Tremont & Suffolk quintet still holds the pole in the Minor league on the Moody Bridge alleys. The mill boys are being pressed hard by the National boys but maintain their stride persistently. With but three more games to roll, the interest is growing and the Mill boys are chalked up against their rivals, the Nationals, for the last game. The steady rolling of Haltkenny is the main factor in the race. He is the strongest come-back on the Mill team. C. Farrell and McDermott have also struck the stride. A Dyer of the Nationals leads the individual averages at .344, which is good considering that he has rolled 26 strings. Lebrun of the L. O. O. M. is second, followed closely by Haltkenny and McDermott.

Last week's games increased the win column of both the Nationals and Tremont & Suffolk by three points, the T. & S. rolled 1371 to the Nationals 1350. McDermott captured the prize Monday with a single of 119. C. Farrell Tuesday with 124.

John Harley the "Silent Knight" of the L. O. O. M. was off color last week. A. Jodoin has received more bad breaks than any man in the league. Haltkenny's "Ceiling Ball" has averaged 101-5

CLARKE SAYS HENDRIX WILL BE PITCHING SENSATION OF LEAGUE

HOT SPRINGS, Ark., March 21.—Fred Clarke, manager of the Pittsburgh Nationals, who, as a rule, is not in the habit of publicly praising the work of any of his pitchers, is out with his statement that Claude Hendrix, the Pirates, young heaver, will be the sensation of the National league this season. Clarke says that no twirler in the parent organization has improved as much as Hendrix. Last season he made a great name for himself in the box, but Clarke looks to the youngster to sparkle this year.

TIPS ON YOUNG PLAYERS

Ball Club Cannot Afford to Ignore Them

That a ball club cannot afford to ignore tips on ball players regardless of who the individual making the recommendation may be has long since been proved. During a season most every major league club received hundreds of letters telling of the promise of some player who may be in some remote club. As far as possible all such tips are now investigated, because it has been found a profitable undertaking.

It is an actual fact that no less than four big league clubs had been tipped off on Walter Johnson when Washington secured him, and ever since that time ball clubs are taking no chances of overlooking a star by refusing to act on the suggestion of some novice.

Johnson going to Washington was really the result of an accident. Joe Cantillon had received several letters from a friend in the west telling him about Johnson. He had no one to send out and get Johnson until one day Blankenship, one of the team's catchers, had a digit split and, of course, it would be useless for several weeks. That same day Cantillon received his sixth letter about Johnson, and he hustled Blankenship on a train for Wash-

ington. J. D. and told him to bring Johnson to Washington. This was done and one of the greatest pitchers in the recent history of the game was obtained.

Frank Navin of the Detroit club was one of those to get a tip on Johnson, but he failed to take advantage of it, and he has had reason to regret it many times. Navin tells this story of the incident:

"A doctor friend of the Detroit club saw Walter Johnson pitching in Idaho two months before the pitcher went to the Washington club. We were tipped off to Johnson's prowess, but we were shy on scouts at that particular time and before we did get a man into the western state Johnson had been signed by Washington.

"I was never able to get on the information immediately on its receipt. Johnson now would have been a member of the Detroit club.

"Hal Guerin was tipped off to us by a friend in Virginia, and one of our scouts reported favorably on the player shortly thereafter.

"Remember the pitcher who was a sensation in the south last year, was tipped off by a traveling man from a Detroit seed corporation.

"There are numerous other players who have been sent to the Tigers by our friends, and we certainly appreciate information. Of course we receive hundreds of letters in the course of a summer, each letter boasting some player, and conditions now are such that we do not permit any tips to go uncalled.

"The Walter Johnson tip was a lesson."

TIPS FOR BALL PLAYERS

What Successful Stars Must Observe

First. To be a good ball player you must have a good throwing arm to start with. In addition you must be fast on your feet and above all have the brains or "baseball head," as it is commonly called, that enables you to think quickly on a close play. This last quality is especially looked for by the managers of ball clubs today. Many a game has been won by brains work.

Second—Batting tells the story in the majority of games. A player may be a star in any position on the ball field, but his batting ability is always the question that arises when he is looking for a higher berth. The weak batter, no matter how well he can hit, is always at a disadvantage. If you can't hit, you are not a team. It is naturally, first of all, practice batting; not by knocking out flies, but rather by trying to hit a good pitcher. The better the box artist is the better the practice is for you. Train the eye to follow the ball and gauge it accurately. In a game don't hurry. Watch the pitcher and when he delivers the ball don't just sit on it. Stand at the plate, hit in confidence that you can hit the next ball pitched if it is worthy of a try, don't let the pitcher get your "goat," study his delivery and discover what kind of a ball he is going to serve up. A close calculation and a trained eye at the bat will do more for a batter than the muscles of Sir Andrew. Don't be wallowing in home runs every time. It is the base hit that fattens up your average and your average is what concerns you. Again, confidence is half the battle; don't be afraid of a pitched ball; walk into it rather than away from it and you will find your ability to hit will be visibly increased. If you should happen to get hit, don't lose your nerve, rather let it help you, as an addition to make it. If you are hit by a pitched ball it is as good as a pass. It's all in the game; don't play a mechanical game, play for the love of the sport and always bear in mind that the man who can bat is seldom left out in the cold.

Third—Base running is an art and is next in importance to batting. In baseball you need speed, daring, a cool head and clear judgment. It is the man that reaches home plate that wins the game. Base sliding is a very necessary requirement for any ball player. Don't go through any unnecessary gymnastics, but keep a going when once started and slide as though you really wanted to get home. There are no conditions of the game. There are two things that serve to increase a man's ability in this phase of the game.

MATRIMONIAL

The marriage of Rev. Solomon A. Abbott of Tacoma, Wash., son of Mr. and Mrs. Samuel Abbott of New Hampshire, and Mrs. Abbie S. Merrill of 25 Grove street, this city, was solemnized at 3 o'clock last night at the home of the bride, the officiating clergyman being Rev. A. Frederic Durkee, pastor of the Highland Congregational church. Only relatives and close friends witnessed the ceremony.

The bride wore a gown of gray satin, trimmed with white lace, and carried a shower bouquet of pink bride's roses. She was attended by Mrs. Sarah Abbott, who wore a gown of black and white silk. The best man was Mr. N. J. Sweeny of this city. After the wedding reception was held until 11 o'clock.

Rev. and Mrs. Abbott left on the 9:45 train for an extended wedding trip. On their return they will be at home to their friends at 26 Grove street after 11 o'clock.

SENATOR GEO. T. OLIVER

Is Assailed by Striking Girls

PITTSBURGH, March 21.—United States Senator George T. Oliver is under fire from 3000 striking employees of the Oliver Iron and Steel company. The strikers recently marched from Socialist hall, South Side, across the river, and started rioting about the building where Senator Oliver has his offices. Mounted police and the traffic squad persuaded the strike leader to

move on with the singing, shouting mob. In the parade were banners on which were printed some of the grievances of the 860 women and 2200 men on strike. The girls in front of the Oliver office called for a real "white-clave investigation." "Help us defeat Oliver, the slave driver," read one banner.

RIGHT CORSETS FOR ALL

THE large woman may be majestic and

stately or she may be shapeless and dowdy—it is all a matter of her corset and the way she wears it.

The manufacturers of WARNER Corsets do not recognize one type of figure-perfection only, but have planned so thoroughly for the needs of every woman that the tall, the short, the slender and the plump may be alike improved in figure and carriage.

You will never know the full beauty-possibilities of your figure, till you have worn the right WARNER model. Every pair guaranteed.

move on with the singing, shouting mob. In the parade were banners on which were printed some of the grievances of the 860 women and 2200 men on strike. The girls in front of the Oliver office called for a real "white-clave investigation." "Help us defeat Oliver, the slave driver," read one banner.

BOY WAS RUN OVER TWO PERSONS KILLED

Accident in Merrimack Square Today

A little Polish boy, aged about five years, and whose name could not be learned on account of his little knowledge of the English language, narrowly escaped serious injury at 2 o'clock this afternoon, when he was struck and run over by a wagon at Merrimack square.

The little fellow with a companion about his age was crossing Prescott street near the Sun building, dragging along a large wooden box, when a wagon turning the corner struck him and threw him to the ground, one of the wheels passing over his body. Several people quickly gathered around the boy and a close examination was made, but to their astonishment the little lad was uninjured. His clothes were torn, but outside of that and a bad scare he was all right.

Break in Banks of Strikers

CAST LIVEPOOL, O. Mar. 21.—The first break among the striking pottery girls occurred when 75 employees of the electric pottery factory returned to work with an increase of ten cents a day and abrogation of the silence rule. The trades and labor council made up of representatives from all organized labor bodies in the city unanimously decided today that if the girls accepted aid from the Industrial Workers of the World they would not have the support of the council in the strike.

Auto Plunged Down an Embankment

SENECA FALLS, N. Y., March 21.—Two persons were killed and one injured this afternoon when an automobile plunged down a steep embankment into the water on its way through the Montezuma marshes. The dead are Miss Lottie Vooches and Raymond Haynes. Miss Myrtle Freeman was slightly hurt.

COMMUNICATION

Mr. Editor—Will you please tell me where I can go to take out my first naturalization papers?

(Signed) Future Citizen.

This is a sample of a number of inquiries received at this office relating to the taking out of naturalization papers and in this particular instance we made inquiry at the superior court. The naturalization court for first papers came in last month and some time in April there will be a session for second papers. It will be recalled, however, that before the session for taking out first papers could go the papers had to be written. The communication to be addressed to Clerk Billingham, superior court, Cambridge. If the proper notices were given when naturalization sessions are to be held here the demand for first papers, it is believed, would be much greater.

Appellate Court at Seoul, Korea, Reverses 100 Koreans Charged With Conspiracy.

SEOUL, Korea, Mar. 21.—The verdict of the Appellate court in the case of the 100 Koreans charged with conspiracy against the Japanese-Governor-General, Count Terauchi, was announced yesterday. All prisoners with the exception of six were acquitted. Baron Yun Chi-ho, an ex-cabinet minister, was sentenced to six years' imprisonment. On the first trial he was sentenced to ten years. Yan Kian-tak, formerly connected with the Korean Daily News, An Taikoo, Im Chil-hong and Yi Sung-hum were also sentenced to six years' imprisonment, while Oh Kwan-ping was sentenced to five years.

Banquet to Dr. Friedmann

NEW YORK, March 21.—Announcement was made today that Charles E. Finley, the New York banker through whose efforts Dr. Frederick Friedmann was persuaded to come to this country with his tubercular vaccine, will give a banquet in Dr. Friedmann's honor on Sunday night next. It will be held at Mr. Finley's country home at Great Neck, L. I., and a number of prominent physicians will attend.

Dr. Friedmann planned to treat 30 patients at Bellevue hospital this afternoon.

INTERESTING MEETING

Members of Pawtucketville Social Club Met Last Night—Several Appearances Received.

The Pawtucketville Social club held an important meeting last night in

their quarters in Moody street. President Denise Ledoux occupied the chair and four new members were initiated, while two applications for membership were received.

A committee which had been appointed

to interview Commissioner Donnelly relative to more lights in the vicinity of Moody and White streets, Woodcock avenue, Forest and Fifth avenue and other streets, received a letter from Congresswoman Rogers to the effect that she would accept the invitation to attend the whist and social to be held at C. M. A. C. hall by Union Samuel de Champlain on April 10.

Remarks in the interest of the elect

were made by President Ledoux and others. In the vacancy created by the resignation of former Secretary E. N. Delbert Hamel was elected secretary to Jordan.

Among the tots on Easter eve
There's eager expectation,
For mother then proceeds to give.
Each egg its decoration.
The dyes of varied hues seem dull
Before the application,
But at the gayly colored shells,
All gaze in admiration.

But greater is the mystery
That comes with Easter morning,
For then the children gather eggs
Of which they had no warning,
And on the shells they find their names
In letters written clearly,
And they're amazed and wondering
How eggs came there so queerly.

They never thought that in the night,
While they were soundly sleeping,
An Easter rabbit to their home,
Would quietly come creeping,
But, while this mystery of eggs
Draws forth this explanation,
Not one e'er saw this bunny come;
None knows its habitation.

LORD HIGH CHANCELLOR

OF ENGLAND COMING TO THIS COUNTRY

Imagine the office of vice-president of the United States and chief justice combined in one man and let your imagination carry him across the Atlantic on a visit to England; then you may have in your mind an analogy to the coming visit to the United States of Viscount Haldane, lord high chancellor of Great Britain. His office resembles that of the vice-president because he is the presiding officer of the house of lords, which has some resemblance to the United States senate, over which the vice-president presides. He is the chief justice of Great Britain because he is the highest judicial officer of the crown, the law adviser of the ministry. He is also the keeper of the great seal with which all important documents of the government are attested.

So you see it is a very great office of state indeed that is going to visit the United States. So important, in fact, is his office that he can remain on this side of the Atlantic for only a very short time. They send him in England whenever any big legal matter arises for adjudication. His coming will be construed rightly as a high compliment to the members of the American bar and will be occasioned by the meet-

ing in Montreal in September of the American Bar Association. Lord Hal-

dane is to deliver an address.

Frank B. Kellogg, the well known American lawyer, familiarly known as a "trust buster," who is president of the association, went expressly to England to request Lord Haldane's presence at the convention. Before the lord high chancellor could give his consent he had to get the permission of the king and had to consult his fellow members of the cabinet.

In all the history of the lord high chancellor's office, dating back quite or pretty nearly to the days of Bouleau and her blue painted Britons, only two lord high chancellors have left England while holding their exalted office. One of them was Cardinal Wolsey, who was lord high chancellor for King Henry VIII. When that fat and fleshy monarch paid his celebrated visit to King Francis of France at Calais, the two foregatherings on the famous Field of the Cloth of Gold, Wolsey accompanied his royal master and took with him the great seal.

Later, when Henry was casting about for an excuse for disgracing his great statesman, one of the things that settled the cardinal's doom was his temporary absence from England. Henry was shocked—oh, very, very much—when he learned of Wolsey's breach of the law which forbids the taking of the great seal from England. So he put Wolsey in the position which made possible the "farewell, a long farewell" to all my greatness, which all schoolboys have heard recited.

The other case of the lord high chancellor's leaving England happened no longer ago than 1907, when Lord Lore-

burn, then lord high chancellor, visited America.

A volume might be filled with interesting things about the lord high chancellor and his office. In the course of the association, went expressly to England to request Lord Haldane's presence at the convention. Before the lord high chancellor could give his consent he had to get the permission of the king and had to consult his fellow members of the cabinet.

Of course there are substantial emoluments connected with the lord high chancellorship. The occupant of the office has a seat in the cabinet, a salary of £10,000, an hereditary peerage and a retiring pension of £5,000 a year for life, even if the lord high chancellor has sat on the woolsack (the title of his seat as presiding officer of the house of lords) for only a few days.

Besides being an eminent statesman and lawyer, Lord Haldane is a noted author. He was formerly war secre-

FOR SUMMER GOWNS

A Wide and Beautiful Variety of Material

There is always something alluring about selecting materials for summer gowns, and this year the pleasure is intensified, for the dainty, thin fabrics seem to be more charming in color and design than any we have known before. Newness in the style world always has a feminine appeal, but this season the cottons are unusually cool, dainty and crisp enough looking to meet the demands of the "hottest summer on record" or the most insidious taste.

As you step into the dress goods department of the shops the first fabric to greet you will probably be the new dotted swiss. This swiss appears in an entirely different guise, with dots both in small and coin size, and with the most fascinating of borders. There are borders in Persian effects, borders in delightful floral patterns and borders new and unusual, as well as staid, conventional designs. In fact, borders appear on all the approved materials of the spring and summer.

Ratine is another fabric that is in vogue this season. It comes in pastel shades for afternoon frocks, in dull colorings for street suits and in white for the dressy wear. All kinds of crepe weaves are in first favor, and there is a chiffon named for a famous woman dressmaker of Paris that is a "tub" material of much importance.

The one piece frock is still popular, and it would be as difficult to count the various phases of this gown as it would be to count one's blessings. And, speaking of benediction, this frock is the salvation of many women. Helped in one piece, it makes them appear sar-

The Last Word in the Approved Fashion for Spring Is Clearly Defined in Our Peerless Showing of

New Tailored Suits

A veritable Promenade of Fashion, presenting in an almost endless succession of beauty and gracefulness the best models of both foreign and domestic design, in all the new Advance Spring fashions, new materials and handsome trimmings.

NEW SPRING SUITS

Variety is one of the predominant features of the new Spring Suits, allowing a freedom in choice of materials, fabrics and models to please even the most exacting tastes.

There is such a wealth of distinctly different models that the well dressed woman may select a style practically her own, and sure to retain its charm of newness and individuality.

THE BALKAN AND RUSSIAN BLOUSES

The newest notes of style sounded in the suits for Spring are of the Balkan Blouse and the short Russian Blouse, both of which are meeting with great favor among the up-to-date dressed women. Another effective model is the new cutaway coat, unusually graceful, accentuating the long, slim lines of the figure.

The skirts are narrow, following the fashionable straight lines, yet many of them are draped, belted and slashed, giving the appearance of fullness, and allowing greater liberty in walking.

MANY NEW MATERIALS AND COLORS

As models, so in colors and materials—a wonderful variety from which to choose. Among the materials are woolen and silk poplins and brocades, cotton and woolen sponges, silk moires, shepherd checks, Bedford cords, pin stripes and the staple serges.

Pronounced colorings are in the lead, including Nell rose, Labrador blue, pigskin, tete de negre, carrot, putty, taupes and two-tone stripes and other attractive new shades.

Fully 1000 New Suits

For your selection, every one a personally-selected garment, correct in style, workmanship and material.

ed the king on his way, while military bands stationed at intervals played the national anthem.

The king, wearing a general's uniform, entered the chamber of deputies at half-past ten. Queen Sophia, Crown Prince George and the other princes of the royal family all dressed in deep mourning, accompanied him.

The deputies stood in their places in deep silence as His Majesty entered.

The Metropolitan of Athens who was

surrounded by the members of the Holy Synod in full canonicals, offered

prayer and then read aloud the con-

stitutional oath which King Constan-

tine, after him, repeated.

The king then signed the oath and

all the cabinet ministers and the

metropolitans of Athens signed it amid

hearty cheers. An immense crowd

gathered outside the chamber of deput-

ies and welcomed the king and other

members of the royal family when they

emerged and the cheering contin-

ued all the way to the palace.

The king will start for Salonic to-

night.

STREET CLEANING

Will be Started Next Week—Line of
Proposed Parade Will be Tackled
First.

The superintendent of the streets and highways department is getting things in shape for next week, when the experts starting cleaning the streets of Lowell. He stated this morning that he will first start on the line of the proposed parade in order to get this part of the city in good shape, especially the side streets in the district. By the middle of the week he expects to shift over on the main thoroughfare.

In a couple of weeks providing the council appropriates a certain sum of money for that purpose, work will be started on the ledge at Dracut, and several experienced men will be put to work.

Of the Trades and Labor
Council Last Night

The convention of the Trades and
Labor council was held last night and
in spite of the rain, there were many
delegates present. During the evening
important business was transacted
with President Rourke in the chair.

There were received, read and placed
on file, letters from Governor Foss and
Senator Fisher. The secretary was in-
structed on vote by the delegates, to
give notice to the senators and repre-
sentatives that house bill No. 2107 giving
drug clerks one day off in seven
was endorsed.

The millmen through their delegates
reported that they will hold a social
and smoke talk on Friday evening,
April 11 and asked the support of the
council. This request was granted.

The secretary was instructed to write
to Commissioner Donnelly in regard to
the treatment of the members of the
local unions who are employed in the
